2.0 OVERVIEW OF KENT STATE UNIVERSITY

2.1 Brief Overview of Kent State University: Kent State University is one of 76 public higher-research universities, as categorized by the Carnegie Foundation for the Advancement of Teaching, and is ranked in the top-tier list of Best National Universities by U.S. News & World Report. In a class by itself, Kent State is the only public university in Northeast Ohio ranked in the top tier. With eight campuses spanning Northeast Ohio, a College of Podiatric Medicine, a Twinsburg Academic Center, and academic sites in major world capitals such as New York City, Geneva and Florence, Kent State is one of Ohio's leading public universities and a major educational, economic and cultural resource far beyond the Northeast Ohio region it has served since 1910. Kent State has a population of more than 38,000+ students, 5,700 full-time and part-time faculty and staff members and 257,000 alumni worldwide. On July 1, 2019, Todd Diacon, Ph.D., became the university's 13th president. The university's Kent Campus has a student body of nearly 26,800+ and a thriving residential population of more than 6,600. Its seven regional campuses draw full- and part-time students, now totaling more than 10,000, from across Northeast Ohio: Kent State at Ashtabula; Kent State at East Liverpool; Kent State at Geauga in Burton and the Regional Academic Center in Twinsburg; Kent State at Salem; Kent State at Stark in Canton; Kent State at Trumbull in Warren; and Kent State at Tuscarawas in New Philadelphia.

The university has expanded beyond the borders of its regional campuses. Kent State's College of Podiatric Medicine is located in Independence, near downtown Cleveland, and the university's Cleveland Urban Design Collaborative, is located in downtown Cleveland. The Collaborative offers architectural and urban design expertise to urban communities, design professionals, and nonprofit and academic partners in Cleveland and Northeast Ohio. In addition, Kent State's School of Library and Information Science offers the Master of Library and Information Science degree program to residents of central and southern Ohio at its site in the State Library of Ohio in Columbus. Outside of Ohio, located in the heart of the New York City's Garment District, the Kent State Fashion School's NYC Studio offers a unique academic experience to further students' studies in fashion design, fashion merchandising and fashion journalism.

Additionally, the university offers more than 200 global education opportunities at its campuses in Florence, Italy, and Geneva, Switzerland; centers in China and India; as well as partnerships with 60 institutes and universities across the globe from Columbia to Vietnam and Germany to Kenya. The Kent Campus is a global education destination in its own right, serving as home to 2,000 students hailing from 104 countries.

Kent State is proud of its outstanding faculty and staff, students, collaborative culture, exceptional academic and research orientation, and strong commitment to engagement, academic excellence and diversity. The university offers more than 282 associate and baccalaureate degree programs. Kent State serves the state, the nation and the world through 165 graduate programs. Academic programs are organized into 10 colleges and one independent school: Applied Engineering, Sustainability and Technology; Architecture and Environmental Design; Arts and Sciences; the Arts; Business Administration; Communication and Information; Education, Health and Human Services; Nursing; Podiatric Medicine; and Public Health, as well as the School of Digital Sciences.

The addition of new learning environments from the sciences to the arts and the development of exciting new academic programs such as aerospace engineering, geographic information science and business analytics characterize Kent State's focus on transformational educational experiences. For more information about Kent State, visit www.kent.edu.

2.2. Brief Description of Kent State University Power Plant: Kent State University's Power Plant supplies steam, electricity, and chilled water to the Kent campus. Since the University's early years, centralized steam production has been used to provide heat and cooling to the campus community.

Kent State University successfully completed its two-stage, combined heat and power project in 2004. Two generators were installed that together produce 12 megawatts of electricity; over 60,000 pounds of steam per hour and 17,000,000 ton-hours of chilled water, which is distributed to the majority of the University's Kent Campus. What makes combined heat and power efficient for Kent State is not only their need for power but, the fact that Kent State has a year round need for steam and chilled water. A predictive model based control solution from Johnson Controls Inc. was installed and became fully functional in 2017. The solution utilizes

data from the Kent Campus JCI Building Automation System. The system known as Central Plant Optimization (CPO), provides operating information for the 2 gas fired turbines of the CHP, 2 boilers and 3 chillers at the Power Plant along with a fleet of electric and steam absorption chillers distributed at 7 chiller plants on campus in a best of class lowest cost directive manner.

3.0 REQUEST FOR PROPOSAL INSTRUCTIONS

- 3.1 Proposal Instruction and Information:** In order to receive consideration, companies responding to this RFP are required to submit their proposal via DocuSign at <https://www.kent.edu/procurement/bids> and the Certificate of Completion must be timestamped “Signed” no later than the date and time specified. Proposals timestamped after that date and time will be rejected.

All of section 5 and Forms 1 through 9, must be completed, dated, and signed by a responsible company official, in addition to the information requested of your company.

It is the responsibility of the respondent to ensure that all required documentation, as enumerated above, is submitted on time. Any submissions received after the stated date and time, or those that do not contain the required information as enumerated above, will be considered incomplete and unresponsive, and will be disqualified.

Instructions, manufacturer’s model or catalog numbers, etc., where shown herein, are for descriptive purposes to guide the proposer in interpretation of the quality, design, and performance desired, and shall not be construed to exclude proposals based on furnishing other types of material or service which may be judged as an acceptable alternate. If the description of your offer differs in any way, you must give a complete detailed description of your quotation including pictures and literature where applicable. Unless specific exception is made, assumption will be that you are submitting a proposal exactly as the specifications of this document require. All prices MUST BE FIRM. Proposers will be expected to deliver on order(s) at the price quoted.

This RFP is part of a competitive procurement process which helps to serve the University’s best interests. It also provides contractors with a formal and unrestrictive opportunity for their services to be considered. The process of competitive negotiation being used in this case should not be confused with the process of competitive sealed bidding. The latter process is usually used where the goods and services being procured can be precisely described and price is generally the determinative factor. With a RFP and competitive negotiation, however, price is not required to be the determinative factor, although it may be, and the University has the flexibility to negotiate with one or more contractors to arrive at a mutually agreeable relationship. Check your proposal carefully for it may not be corrected after the proposal has been opened.

- 3.2 RFP Question and Answer Period:** Questions concerning this RFP must be submitted by email to **Janet Schramm in the Procurement Department via email at jschramm@kent.edu no later than October 22, 2021.** The University evaluation team will review and attempt to answer any and all questions received. All questions and their corresponding answers will be posted to the Kent State University Procurement Website <https://www.kent.edu/procurement/bids> .
- 3.3 New Product Lines:** Upon written request by the successful proposer, new related product lines not available at the time of proposal bidding, may be added during the course of any agreement resulting from this RFP at like discounts for the represented manufacturers.
- 3.4 Specifications:** Specifications have been based on products familiar to the University and are used for the purpose of description and establishing quality desired. Acceptable alternates will also be considered.
- 3.5 Exceptions to Specifications:** The proposer shall clearly state in the quote any exceptions to, or deviations from, these specifications, terms or conditions; otherwise, the proposer will be responsible for compliance with all requirements listed herein. Proposers shall provide a separate, itemized list of any and all exceptions. Such list must be cross referenced to the corresponding numbered item in this bid.
- 3.6 Additional Information:** In the event that information submitted by the Respondent is unclear to the University, the University may request additional explanation from the Respondent for the purpose of evaluation and decisions. The respondent shall answer requests for additional information or clarification in writing, and these responses will become part of the company’s overall submission. Respondents failing to provide adequate information on any issue in a timely manner to allow a comprehensive evaluation by the University shall be considered unresponsive, and their proposal subject to rejection.

3.7 Verbal Information: Respondents shall NOT base the proposal on verbal information from any employee of the University from the date and time the RFP is received by the proposer, unless otherwise noted elsewhere in the RFP. Any such incident will invalidate the proposal, and bar that particular vendor from receiving a purchase or contract award. In case errors or omissions are found in the proposal document, companies submitting proposals shall at once inform the signee in the Procurement Department who will publish the correction to all companies.

3.8 Evaluation and Contract Award: Selection and award of contract will be made to the supplier(s) whose proposal, in the sole opinion of Kent State University, represents the best overall value to the University. Factors which determine the award are more fully detailed in the specifications, and will include, but will not be limited to, the following: The proposer's responsiveness to all specifications in the RFP, quality of the proposer's products and/or services, ability to fulfill the contract, and general responsibility as evidence of past performance. Payment terms and cash discounts will be considered as determining factors in the contract award.

Should the total potential spend of the contract resulting from this RFP, inclusive of all possible renewals, exceed or appear to exceed \$1.0 million, the final selection will be pending Board of Trustees approval at its next scheduled meeting; and appropriate contract review, approval and execution pursuant to University Policy.

Notwithstanding the above, this RFP does not commit the University to enter into any contracts as described in this document. The University reserves the right to reject any or all offers and to waive formalities and minor irregularities in the proposals it receives.

3.9 Proposer Presentations: Proposers submitting proposals which meet the selection criteria and which are deemed to be the most advantageous to the University may be required to give an oral presentation to the University selection team. Scheduling of these oral presentations will be done by the Procurement Department.

3.10 Samples: Requested samples necessary for evaluation must be provided without cost or obligation to Kent State University, and shall become the property of the University. Upon request by the supplier, unless destruction, alteration or retention of the sample is required for evaluation purposes, samples may be returned to supplier at supplier's expense.

3.11 Rights Reserved:

The University reserves, and in its sole discretion may, but shall not be required to, exercise the following rights and options with respect to the proposal submission, evaluation and selection process under this RFP:

- To reject any proposal if, in the University's sole discretion, the proposal is incomplete or is not responsive to the requirements of this RFP, the Respondent does not meet the Qualifications set forth in the RFP, or it is otherwise in the University's best interest to do so;
- To supplement, amend, substitute or otherwise modify this RFP at any time prior to selection of one or more respondents for negotiation or to cancel this RFP with or without issuing another RFP;
- To accept or reject specific items or elements in any proposal and award a contract based only on such items or elements if it is deemed in the University's best interest to do so;
- To reject the proposal of any respondent that, in the University's sole judgment, has been delinquent or unfaithful in the performance of any contract with the University, or is financially or technically incapable or is otherwise not a responsible respondent;
- To waive any informality, defect, non-responsiveness and/or deviation from this RFP and its requirements that is not, in the University's sole judgment, material to the proposal;
- To permit or reject at the University's sole discretion, corrections (including for information inadvertently omitted), of proposals by some or all of the respondents following proposal submission;

- To request that some or all of the respondents modify proposals based upon the University’s review and evaluation;
- To request additional or clarifying information or more detailed information from any respondent at any time, before or after proposal submission, including information inadvertently omitted by a respondent;
- To inspect and otherwise investigate projects performed by the respondent, whether or not referenced in the proposal, with or without the consent of or notice to the respondent;
- To conduct such investigations with respect to the financial, technical, and other qualifications of respondents as the University, in its sole discretion, deems necessary or appropriate.
- To enter into post-submission negotiations and discussions with any one or more respondents regarding price, scope of services, and/or any other term of their proposals, and such other contractual terms as the IUC-PG (Inter-University Council) www.iucpg.com may require, at any time prior to execution of a final contract. The University may, at its sole election, enter into simultaneous, competitive negotiations with multiple respondents or negotiate with individual respondents seriatim. In the event negotiations with any respondent(s) are not satisfactory to the University, the University reserves the right to discontinue such negotiations at any time; to enter into or continue negotiations with other respondents; and, to solicit new proposals from entities that did not respond to this RFP.

3.12 Valid Proposals: Proposals will be considered valid through March 9, 2022 no later than 3:00 PM EDT, unless otherwise noted.

3.13 Preferred Invoicing and Payment Methods: The successful proposer must invoice products or services awarded exactly as indicated on a resultant University purchase order, to include cost, unit specified, quantity ordered, item descriptions, etc.

The University prefers to receive invoices for goods and services via electronic means. It is the goal of the University to make payment on invoices via Automated Clearing House (ACH) transfer. To that end, please indicate your company’s capabilities for electronic invoicing and payment where appropriate in Section 8 of this document.

3.14 Dun and Bradstreet Data: Kent State University reserves the right to request data from Dun and Bradstreet concerning history of company’s financial and payment statistics. Proposals from companies failing to provide the requested data to Dun and Bradstreet will not be considered.

3.15 Supplier Diversity: The University strongly encourages women, minority groups, and EDGE vendors to respond to University Requests for Proposals. Kent State University is committed to a proactive and a comprehensive supplier diversity program that ensures an active and full participation of historically disadvantaged, economically and socially underutilized businesses located within the University’s geographic region and beyond with specific attention to include Minority Business Enterprises (MBE), Women-Owned Business Enterprises (WOBE), and State of Ohio EDGE Enterprises

Further, Kent State University encourages the participation of women, minority groups, and EDGE vendors in all University contracts. Kent State University therefore requires that all prospective suppliers demonstrate good faith efforts to obtain the participation of minority-owned, women-owned, and EDGE business enterprises in the work to be performed under contract(s) resulting from this RFP. The respondent is required to furnish appropriate information about its effort to include women-owned, minority, and EDGE vendors in the contract, including the identities of such enterprises and the dollar amount supplied under the contract.

A listing of Ohio certified minority businesses, as well as the services and commodities they provide, is available from the State of Ohio Minority Business Enterprise Unit.

3.16 Preference to United States and Ohio Products: State of Ohio Am. H.B. 271 requires that preference be given to products produced or mined in the United States and in Ohio

3.17 Buy America: Proposals will be evaluated to determine that a proposer’s offering is for a “domestic source end product”, as defined in the Federal Buy America Act, 41 U.S.C.A., section 10a-10d. Any proposer’s offering that does not meet this requirement shall be rejected, except in those circumstances where a determination has been made that certain articles, materials and supplies are not mined, produced or manufactured in the U.S. in sufficient and reasonably available commercial quantities and of satisfactory quality.

3.18 Buy Ohio: Sections 125.09 and 125.11 of the Ohio Revised Code require that in the evaluation of bids, the University give preference to products which are “mined, excavated, produced, manufactured, raised, or grown in the state by a person where the input of Ohio products, labor, skill, or other services constitutes no less than 25% of the manufactured cost”, or products offered by bidders who have a “significant Ohio presence”, defined to mean that the bidders: (1) pay required taxes to the state of Ohio; (2) are registered and licensed to do business in the state of Ohio with the Office of Secretary of State; and (3) have ten or more employees based in Ohio, or seventy-five percent or more of their employees based in Ohio.

Any bids meeting the above criteria will be given a preference of up to five (5) percent over the lowest price "non-Ohio" bid submitted; except that such preference will not be applied against vendors from bordering states, provided that the border state imposes no greater restrictions than contained in sections 125.09 and 125.11 of the Ohio Revised Code. Where it has been determined that selection of the lowest Ohio proposer, if any, will not result in an excessive price or a disproportionately inferior product or service, the contract shall be awarded to the low Ohio proposer at the proposal price quoted. Where it is advantageous to award the contract to other than an Ohio proposer or Proposers from a border state, then the contract shall be awarded accordingly.

3.19 H.B. 476, State Contract and Boycotting: Pursuant to R.C. 9.76(B), by responding to this RFP, respondent warrants that it is not boycotting any jurisdiction with whom the State of Ohio can enjoy open trade, including Israel, and will not do so during the term of any contract that may result from this RFP.

6.2 Introduction: Kent State was founded in 1910 and today the Kent State Campus consists of over six million gross square feet of floor area and approximately 151 buildings on 950 acres in the center of Kent, Ohio. Approximately 36% of the Campus buildings are Residence Halls, 47% Education and General and 17% Auxiliary. Along with the Regional Campuses and off campus buildings, the total is nearly 8 million gross square feet of floor area. It is currently expected at the time of this pricing event the Kent Campus, the 7 regional campuses, and the 2 satellite campuses will have a total of 86 electric meters on campus and off campus and one large meter for power flow through the Summit Street substation (Power Plant), for a total of 87 electric accounts. For KSU's Fiscal Year 2021 (FY2021), which is from 7-1-2020 through 6-30-2021, information for all 87 electric accounts is provided along with monthly usage by account. This information is provided in the attachments.

The COVID situation has impacted the amount of electricity consumed at all the KSU Campuses and this information is provided in the attachments for KSU FY2019, FY2020, and FY2021. It is currently expected that electricity consumption levels will reach their pre COVID pandemic levels, similar to FY2019 consumption levels going forward. Further, it is currently expected that the large main account associated with the Power Plant will purchase about 45,000,000 kWh/year with the balance being generated on campus.

In KSU FY2021 about ninety-three percent (93%) of the power to the Kent Campus came from the main large service substation or was generated at the adjacent Summit Street Power Plant. In KSU FY2021, about seventy-eight (78%) of the power to all the Kent Campuses came from the main large service substation or was generated at the adjacent Summit Street Power Plant. The Summit Street Power Plant was built in 2001 to provide a

centralized source of power, steam and chilled water to the campus. The electric generation equipment consists of a Solar Taurus 60 (GT-1), with an ISO rating of 5,670 kW and a Solar Taurus 70 (GT-2), with an ISO rating of 7,520 kW. What is not generated in the Summit Street Power Plant is purchased. Utility power is provided by Ohio Edison at 69 kV and is stepped down to 13.2 kV via two utility transformers. Most of the power distributed to the campus is at the 13.2 kV level.

- 6.3 Service Requirements:** Kent State is seeking an up to twenty-four (24) months competitive electric power price for ALL of its purchased electric supply beginning with the read in May 2022 for Group 1 Accounts and twenty-two (22) months beginning with the read date in July 2022 for Group 2 Account. The goal is to purchase power efficiently and at the lowest possible price. Capacity Costs (Fixed) – For term lengths beyond which capacity costs are known, bidders must use the last available price. Once actual prices are known, the Contractor will be able to adjust the contract rate accordingly.

Upon request, RFP participants will be provided a release authorization to obtain detailed electric utility information from the utility companies. Participants must contact Enel X at jonathan.harvey@enel.com to request a letter of authorization for load information. Refer to Other Electricity Profiles in Attachment ‘A’.

Product 1 - Retail Electric Service Product.

For Group 1 accounts this product will be a fixed price full requirement product including firm uninterruptable electric supply and transmission with a 100% bandwidth full swing and will apply to all Kent State meters. A representative historical power profile is shown in Attachment A and a LOA is available to the bidder upon request. Product will include all Energy Costs, (including basis & losses), Other Costs, (including taxes, supplier administrative, credit or agent fees), Ancillary Service Costs, (including administrative and power regulation, reserve, and balancing costs). For term lengths beyond which capacity costs are known, bidders must use the last available price. Once actual prices are known, the Contractor will be able to adjust the contract rate accordingly. The product also will include all costs from any currently filed non-by-passable riders. Reference the Attachment A for Pricing Components. Participants may contact Enel X at jonathan.harvey@enel.com to request a sample invoice showing all of the above costs for (1) a typical month. Provisions for Onsite Generation: KSU has 4,248.20 kWdc of Solar PV electric production most with PPAs.
