# Maintenance Technician
OhioMeansJobs Post #263864764

## Bay Packaging/Third Dimension is hiring a Maintenance Technician

Perform preventative and predictive maintenance (PM) on all machinery and equipment based on schedule. Repair or replace defective parts. Troubleshoot electrical, pneumatic, hydraulic and mechanical systems. Set up and operate welder, mill, drill press, grinder, and other metalworking tools to make and repair parts. Set up new equipment lines and equipment change overs. Maintain inventory of parts to assure repairs are done in a timely manner. Keep tools, shop, and work area organized and clean. Recommend measures to improve production methods, equipment performance, efficiency, and quality of product. Test, repair, and operate equipment and tools safely. Understand and use lock out / tag out devices. Perform building maintenance including preventive maintenance and repairs on doors, docks, lighting, etc. Use basic wood working skills to repair and build tables, jigs, and interior wooden structures. Read and interpret documents such as safety rules, operation and maintenance instructions, and procedure manuals.

Full Time Monday through Friday With Benfits

## Desired skills:
- Previous repair and maintenance (machine mechanical / electrical / hydraulics) required. Preventive maintenance inspection (PM) diagnose, repair, and rebuild major equipment/components including but not limited to balers, conveyors, hydraulic power packs, diverters, compressors, motors, fans, pumps, forklifts, and building equipment. Strong knowledge of pneumatic, hydraulic, electro-mechanical and other automation devices required. Ability to read prints, sketches and use those to direct fabrication or repair. Ability to communicate effectively with team members. Teamwork and problem-solving skills are a must. Requires working overtime. Ability to lift up to 40lbs. Ability to stand, bend or kneel for long and short periods of time.
