Hello SASP!

If this is your first year in the program, welcome! For those of you returning, welcome back! Hopefully you are enjoying the gorgeous fall colors.

Student Affiliates in School Psychology, or SASP, is a graduate student organization of which all KSU School Psychology students are automatically members. SASP works under the guidance of the American Psychological Association (APA) and the National Association of School Psychologists (NASP). SASP facilitates social cohesion, community and campus involvement, and professional development within the program.

This fall we have several exciting events and initiatives planned. We encourage you to join us at the fall social event, attend SASP meetings, and join a committee that interests you!

National School Psychology Week (NSPW) 2021: November 8-12

This year's theme is "Let's Get in GEAR." (Grow, Engage, Advocate, Rise). The theme’s acronym provides a challenge to grow both personally and professionally. It encourages us to engage in best practices and advocate for children's access to mental health and learning supports. To rise implies resilience and renewal despite the challenges of the past (NASP, 2021).

We will celebrate NSPW week by spreading awareness about school psychology throughout November. Please contact Jordan Mackay at jmackay5@kent.edu to join the outreach committee and assist in these efforts!
