### 3.0 REQUEST FOR PROPOSAL INSTRUCTIONS

- 3.1 Proposal Instruction and Information:** In order to receive consideration, companies responding to this RFP are required to submit their proposal electronically through DynamicForms. No other submission method will be accepted, unless otherwise disclosed in the RFP Instructions and Specifications. The confirmation of receipt of your response must be noted as “Signed” no later than the “Proposals Due” date and time specified above. The Forms History of your DynamicForms account will also note the date and time of your proposal submission. Proposals submitted after the “Proposals Due” date and time specified above will be rejected.

**Forms 1 through 9 must be completed, dated, and signed by a responsible company official, in addition to the information requested of your company.**

**It is the responsibility of the respondent to ensure that all required documentation, as enumerated above, is submitted on time. Any submissions received after the stated date and time, or those that do not contain the required information as enumerated above, will be considered incomplete and unresponsive, and will be disqualified.**

Instructions, manufacturer’s model or catalog numbers, etc., where shown herein, are for descriptive purposes to guide the proposer in interpretation of the quality, design, and performance desired, and shall not be construed to exclude proposals based on furnishing other types of material or service which may be judged as an acceptable alternate. If the description of your offer differs in any way, you must give a complete detailed description of your quotation including pictures and literature where applicable. Unless specific exception is made, assumption will be that you are submitting a proposal exactly as the specifications of this document require. All prices MUST BE FIRM. Proposers will be expected to deliver on order(s) at the price quoted.

This RFP is part of a competitive procurement process which helps to serve the University’s best interests. It also provides Vendors with a formal and unrestrictive opportunity for their services to be considered. The process of competitive negotiation being used in this case should not be confused with the process of competitive sealed bidding. The latter process is usually used where the goods and services being procured can be precisely described and price is generally the determinative factor. With an RFP and competitive negotiation, however, price is not required to be the determinative factor, although it may be, and the University has the flexibility to negotiate with one or more Vendors to arrive at a mutually agreeable relationship. Check your proposal carefully for it may not be corrected after the proposal has been opened.

- 3.2 New Product Lines:** Upon written request by the successful proposer, new related product lines not available at the time of proposal bidding, may be added during the course of any agreement resulting from this RFP at like discounts for the represented manufacturers.
- 3.3 Specifications:** Specifications have been based on products and services familiar to the University and are used for the purpose of description and establishing quality desired. Acceptable alternates will also be considered.
- 3.4 Exceptions to Specifications:** The proposer shall clearly state in the quote any exceptions to, or deviations from, these specifications, terms or conditions; otherwise, the proposer will be responsible for compliance with all requirements listed herein. Proposers shall provide a separate, itemized list of any and all exceptions. Such list must be cross referenced to the corresponding numbered item in this bid.
- 3.5 Additional Information:** In the event that information submitted by the proposer is unclear to the University, the University may request additional explanation from the proposer for the purpose of evaluation and decisions. The proposer shall answer requests for additional information or clarification in writing, and these responses will become part of the company’s overall submission. Proposers failing to provide adequate information on any issue in a timely manner to allow a comprehensive evaluation by the University shall be considered unresponsive, and their proposal subject to rejection.

**3.6 Verbal Information:** Respondents shall NOT base the proposal on verbal information from any employee of the University from the date and time the RFP is received by the proposer, unless otherwise noted elsewhere in the RFP. Any such incident will invalidate the proposal, and bar that particular vendor from receiving a purchase or contract award. In case errors or omissions are found in the proposal document, companies submitting proposals shall at once inform the signee in the Procurement Department who will publish the correction to all companies.

**3.7 Evaluation and Contract Award:** Selection and award of contract will be made to the vendor(s) whose proposal, in the sole opinion of Kent State University, represents the best overall value to the University. Factors which determine the award are more fully detailed in the specifications, and will include, but will not be limited to, the following: The proposer's responsiveness to all specifications in the RFP, quality of the proposer's products and/or services, ability to fulfill the contract, and general responsibility as evidence of past performance. Payment terms and cash discounts will be considered as determining factors in the contract award.

Should the total potential spend of the contract resulting from this RFP, inclusive of all possible renewals, exceed or appear to exceed \$1.0 million, the final selection will be pending Board of Trustees approval at its next scheduled meeting; and appropriate contract review, approval and execution pursuant to University Policy.

Notwithstanding the above, this RFP does not commit the University to enter into any contracts as described in this document. The University reserves the right to reject any or all offers and to waive formalities and minor irregularities in the proposals it receives.

**3.8 Proposer Presentations:** Proposers submitting proposals which meet the selection criteria and which are deemed to be the most advantageous to the University may be required to give an oral presentation to the University selection team. Scheduling of these oral presentations will be done by the Procurement Department.

**3.9 Samples:** Requested samples necessary for evaluation must be provided without cost or obligation to Kent State University, and shall become the property of the University. Upon request by the supplier, unless destruction, alteration or retention of the sample is required for evaluation purposes, samples may be returned to supplier at supplier's expense.

**3.10 Rights Reserved:** The University reserves, and in its sole discretion may, but shall not be required to, exercise the following rights and options with respect to the proposal submission, evaluation and selection process under this RFP:

- To reject any proposal if, in the University's sole discretion, the proposal is incomplete or is not responsive to the requirements of this RFP, the Respondent does not meet the Qualifications set forth in the RFP, or it is otherwise in the University's best interest to do so;
- To supplement, amend, substitute or otherwise modify this RFP at any time prior to selection of one or more respondents for negotiation or to cancel this RFP with or without issuing another RFP;
- To accept or reject specific items or elements in any proposal and award a contract based only on such items or elements if it is deemed in the University's best interest to do so;
- To reject the proposal of any respondent that, in the University's sole judgment, has been delinquent or unfaithful in the performance of any contract with the University, or is financially or technically incapable or is otherwise not a responsible respondent;
- To waive any informality, defect, non-responsiveness and/or deviation from this RFP and its requirements that is not, in the University's sole judgment, material to the proposal;
- To permit or reject at the University's sole discretion, corrections (including for information inadvertently omitted), of proposals by some or all of the respondents following proposal submission;
- To request that some or all of the respondents modify proposals based upon the University's review and evaluation;
- To request additional or clarifying information or more detailed information from any respondent at any time, before or after proposal submission, including information inadvertently omitted by a respondent;
- To inspect and otherwise investigate projects performed by the respondent, whether or not referenced in the proposal, with or without the consent of or notice to the respondent;

- To conduct such investigations with respect to the financial, technical, and other qualifications of respondents as the University, in its sole discretion, deems necessary or appropriate.
- To enter into post-submission negotiations and discussions with any one or more respondents regarding price, scope of services, and/or any other term of their proposals, and such other contractual terms as the IUC-PG may require, at any time prior to execution of a final contract. The University may, at its sole election, enter into simultaneous, competitive negotiations with multiple respondents or negotiate with individual respondents seriatim. In the event negotiations with any respondent(s) are not satisfactory to the University, the University reserves the right to discontinue such negotiations at any time; to enter into or continue negotiations with other respondents; and, to solicit new proposals from entities that did not respond to this RFP.

### 3.11 Procedure for Conducting Negotiations:

#### —Who To Negotiate With First

After completion of the initial evaluation process, the University may begin negotiations with one or more vendors whose proposals are most in keeping with the University's requirements as enumerated in the RFP. Notification of such negotiations will be offered after a reasonable amount of time has elapsed from the proposal deadline. Negotiations shall continue to the satisfaction of the University or, if the University determines a satisfactory agreement cannot be reached, the University may initiate negotiations with one or more of the remaining vendors.

#### —Negotiations With Multiple Vendors

The University reserves the right, at all times during the negotiation process, to negotiate with one or more vendors at the same time, but is under no obligation to do so. The vendor(s) with whom the University enters into negotiations must have present a representative with decision-making authority.

#### —If Negotiations Are Unsuccessful

With respect to any of the services that are a part of this RFP, in the event that the University determines that a contract cannot be negotiated with any of the vendors who respond to the RFP, the University shall have the right to issue a new RFP or other process to seek qualified applicants, to provide the services itself, or to use another process (e.g., sole source contracting) in order to have the product(s) and/or service(s) provided.

- 3.12 **Valid Proposals:** Proposals will be considered valid for a period of one hundred-twenty (120) days after the scheduled due date, unless otherwise noted.

- 3.13 **Preferred Invoicing and Payment Methods:** The successful proposer must invoice products or services awarded exactly as indicated on a resultant University purchase order, to include cost, unit specified, quantity ordered, item descriptions, etc.

The University prefers to receive invoices for goods and services via electronic means. It is the goal of the University to make payment on invoices via Automated Clearing House (ACH) transfer or Credit Card. To that end, please indicate your company's capabilities for electronic invoicing and ACH/Credit Card payment where appropriate in Section 8 of this document.

- 3.14 **Dun and Bradstreet Data:** Kent State University reserves the right to request data from Dun and Bradstreet concerning history of company's financial and payment statistics. Proposals from companies failing to provide the requested data to Dun and Bradstreet will not be considered.

- 3.15 **Preference to United States and Ohio Products:** State of Ohio Am. H.B. 271 requires that preference be given to products produced or mined in the United States and in Ohio

- 3.16 **Buy America:** Proposals will be evaluated to determine that a proposer's offering is for a "domestic source end product", as defined in the Federal Buy America Act, 41 U.S.C.A., section 10a-10d. Any proposer's offering that does not meet this requirement shall be rejected, except in those circumstances where a determination has been made that certain articles, materials and supplies are not mined, produced or manufactured in the U.S. in sufficient and reasonably available commercial quantities and of satisfactory quality.

- 3.17 Buy Ohio:** Sections 125.09 and 125.11 of the Ohio Revised Code require that in the evaluation of bids, the University give preference to products which are “mined, excavated, produced, manufactured, raised, or grown in the state by a person where the input of Ohio products, labor, skill, or other services constitutes no less than 25% of the manufactured cost”, or products offered by bidders who have a “significant Ohio presence”, defined to mean that the bidders: (1) pay required taxes to the state of Ohio; (2) are registered and licensed to do business in the state of Ohio with the Office of Secretary of State; and (3) have ten or more employees based in Ohio, or seventy-five percent or more of their employees based in Ohio.

Any bids meeting the above criteria will be given a preference of up to five (5) percent over the lowest price "non-Ohio" bid submitted; except that such preference will not be applied against vendors from bordering states, provided that the border state imposes no greater restrictions than contained in sections 125.09 and 125.11 of the Ohio Revised Code. Where it has been determined that selection of the lowest Ohio proposer, if any, will not result in an excessive price or a disproportionately inferior product or service, the contract shall be awarded to the low Ohio proposer at the proposal price quoted. Where it is advantageous to award the contract to other than an Ohio proposer or Proposers from a border state, then the contract shall be awarded accordingly.

- 3.18 H.B. 476, State Contract and Boycotting:** Pursuant to R.C. 9.76(B), by responding to this RFP, respondent warrants that it is not boycotting any jurisdiction with whom the State of Ohio can enjoy open trade, including Israel, and will not do so during the term of any contract that may result from this RFP.
- 3.19 Voluntary Question and Answer Period:** Questions vendors may wish to pose concerning the RFP, specifications, etc., must be submitted to **Larry McWilliams in the Procurement Department via email at [lmcwilli@kent.edu](mailto:lmcwilli@kent.edu) no later than 1:00 PM Eastern Wednesday, April 1, 2026.** The University evaluation team will review and attempt to answer any and all questions received. All questions and their corresponding answers will be posted in the “Bids” section of the Kent State Procurement Department website, [www.kent.edu/procurement](http://www.kent.edu/procurement) no later than **5:00 PM Eastern Wednesday, April 8, 2026.** The question and answer period is voluntary only and not a requirement.

## 6.0 REQUEST FOR PROPOSAL SPECIFICATIONS

### SCOPE

Kent State Online is seeking a strategic digital partner to support the ongoing growth, performance, and innovation of onlinedegrees.kent.edu, the university's primary external-facing website for online degree recruitment, both in its current state and desired future state.

### CURRENT STATE: PROJECT OVERVIEW, GOALS AND VENDOR REQUIREMENTS

The selected vendor will support:

- Enterprise-grade hosting and infrastructure
- Ongoing website development and optimization
- Technical and content SEO
- AI-enabled features and workflows
- Ability to ensure our degree programs are discoverable by AI Answer Engines
- Performance, accessibility, and analytics
- Scalable growth across a broad digital ecosystem, including 90+ academic program pages, an expanding student services section, and a growing blog and content marketing strategy designed to support recruitment, engagement, and long-term organic growth
- Integration and support for API-based data connections, including the university catalog for program information and Slate for inquiry, lead capture, and student recruitment workflows
- Future-state planning for enhanced student engagement features, including the potential development of an online community experience integrated within the website
- A site architecture and engagement model that prioritizes Kent State Online ownership and administrative control, allowing the internal KSO team to manage, update, and operate the website independently, with consulting and development support as needed. Solutions should avoid proprietary or restrictive implementations that limit internal access, documentation, or long-term maintainability.

#### Hosting and Infrastructure Requirements

Vendors must detail their approach to enterprise hosting, including uptime SLAs (99.9%+), scalable infrastructure, CDN integration, and U.S.-based server options.

Security requirements include SSL/TLS, WAF, DDoS mitigation, role-based access, and FERPA-conscious practices.

Backups must include automated daily backups, disaster recovery planning, and restoration testing.

#### CMS and Development Capabilities

Vendors must demonstrate experience with enterprise CMS platforms and modular, component-based development.

Support must include front-end/back-end development, custom components, reusable templates, version control, and staging/QA environments.

Integration experience with CRM, analytics, marketing automation, and admissions systems is required.

**SEO (Technical, On-Page, Content)**

SEO services must include technical SEO, Core Web Vitals optimization, schema markup, metadata strategies, internal linking, and content optimization. Vendors should provide keyword research, evergreen content strategy, and program-level performance reporting.

**AI and Intelligent Features**

Vendors should describe AI-powered user features such as chat and program discovery, as well as internal AI workflows for content, SEO, and analytics.

Transparency, data privacy, and human-in-the-loop governance are required.

**Performance, Accessibility and Compliance**

Vendors must support mobile-first performance optimization, WCAG 2.1 AA accessibility compliance, ongoing monitoring, and higher-education regulatory standards.

**Analytics, Reporting and Optimization**

Required capabilities include GA4 and GTM configuration, event tracking, dashboards, CRO recommendations, and A/B testing.

**Ongoing Support and Partnership Model**

Vendors must provide SLAs, emergency response procedures, a named account manager, and proactive strategic recommendations with regular optimization reviews.

**Experience and Qualifications**

Vendors should provide higher education experience, relevant case studies, and examples of scalable recruitment-focused websites.

**Pricing and Engagement Model**

Vendors must outline hosting costs, retainer vs project models, hourly rates, and scalability of services.

**Timeline and Evaluation Criteria**

Proposals should include onboarding timelines, discovery approaches, assumptions, and dependencies. Evaluation will prioritize strategic alignment, technical expertise, SEO maturity, AI readiness, and higher-ed experience.

**FUTURE STATE: ANTICIPATED/DESIRED SITE NEEDS AND SITE GROWTH**

Vendors should demonstrate the ability to support future growth and innovation beyond the current site, including personalization, advanced program discovery, community and engagement features, AI-enabled experiences, and scalable content governance. Proposals should reflect a flexible, modular approach that allows Kent State Online to evolve the site over time without major “replatforming” or vendor dependency.

The University anticipates that achieving the desired future-state experience may require substantial restructuring or rebuilding of the current website. Vendors should outline their recommended approach based on discovery, including how they would evolve the site architecture to support long-term scalability and performance.

Vendors must include a proposed approach for content and data migration from the existing site environment, including preservation of SEO value, URL integrity, structured content, and system integrations.

To support long-term sustainability and internal ownership, vendors must provide comprehensive training and documentation to enable Kent State Online staff to independently manage content, workflows, and ongoing site updates following launch.

In consideration of the above, please provide input on the following points:

### **Personalization and Journey Intelligence**

Future considerations:

- Personalization by audience type (adult learner, grad v. undergrad, returning student)
- Geo-aware or behavior-aware content blocks
- Dynamic CTAs based on funnel stage
- Program recommendations based on browsing patterns
- Returning visitor recognition (privacy-compliant)

### **Program Discovery and Comparison Tools**

Future considerations:

- Side-by-side program comparison
- Filterable program discovery (discipline, credential, modality, career outcome)
- “Best fit” or guided pathway tools
- Credential stacking and pathway visualization

### **Community and Peer Signal**

Letting prospective students see and hear from people like them, in places that matter, without turning the website into a social network.

Future considerations:

- Embedded student/alumni stories tied to programs
- Light-touch community spaces (not full LMS)
- Moderated Q&A or discussion tied to programs or themes
- Integration with existing platforms

### **AI as an Experience Layer**

AI should reduce cognitive load for users and manual work for the KSO marketing team.

Future considerations:

- AI-assisted program matching
- Conversational search (“What programs fit my background?”)
- AI-driven content summarization for long pages
- Admin-side AI for SEO, content health, and optimization
- Guardrails and governance baked in

### **Conversion and Application Acceleration**

The University already uses Slate, but its forms would be built into the site, look more designed, and be flexible to what the user needs to see.

Future considerations:

- Smart forms that adapt based on user input
- Progressive lead capture (not one big form)
- Application readiness tools (what's missing, next steps)
- Slate data feedback loops into site content

### **Content Velocity and Governance at Scale**

Efficiently create, update, manage and retire a large amount of content across many programs without difficulty.

Future considerations:

- Content health dashboards (outdated, underperforming, duplicate pages)
- Editorial workflows with approvals and versioning
- Program page lifecycle management
- Blog to program to CTA linking intelligence (blogs automatically or intentionally: link to the right programs, use the right CTAs, update when programs change)

### **Multisite and Audience Segmentation Readiness**

Intranet v. external v. services sites.

Future considerations:

- Ability to spin up microsites without reinvention
- Segmentation for:
  - External recruitment
  - Internal faculty/staff
  - Partner institutions
- Shared components across sites

### **Data Ownership, Portability and Exit Strategy**

To protect KSO long-term.

Future considerations:

- Full access to content, code, and data
- Clear offboarding documentation
- No proprietary blockers
- API-first mindset

### **Innovation Without Disruption**

No need for another “big rebuild” in 3–5 years.

Future considerations:

- Modular architecture that allows experimentation
- A/B testing without dev bottlenecks
- Sandbox environments for innovation
- Clear roadmap collaboration

*(Continued on next page.)*

---

**FINANCIAL PROPOSAL**

Provide pricing as described in proposal and required above. Include a separate document for pricing if necessary, consistent with the format here presented. Kent State University expects that all costs are included in the overall prices proposed, and that there will be no additional expenses billed to the University for any reason.

*(End of section.)*
