Greetings!

A.I.D. training is a mental health awareness training that teaches how to:

- Be aware of,
- Interact with and
- Direct people in distress

We encourage you to refer to & fill out this workbook as you follow along with the A.I.D. training.

Thanks for joining us today!

A.I.D. training was created by:

Kent State University
College of Public Health
Center for Public Policy and Health
Division of Mental Health and Substance Use

Website: www.kent.edu/mhsu/AID
Social media: @kentmhsu on Facebook, Instagram, Twitter
Contact: Dr. Deric Kenne | dkenne@kent.edu | 330-672-7105

**Learning Objectives**

The items in *bold italics* are skills that you will get hands-on experience practicing during the training!

1. Learn mental health terminology
   
   a. Define mental health, stress and mental distress
   
   b. Learn about the mental health continuum
   
   c. Define mental health problem and mental health disorder
   
   d. Learn responses to stress and mental health problems
   
   e. Define stigma

2. Learn ways to reduce stigma surrounding mental illness
   
   a. Discuss why people with mental illness are stigmatized
   
   b. Discuss why stigma is a problem
   
   c. Discuss ways to reduce or prevent stigma

3. Learn and practice the A.I.D. action plan to assist someone in mental distress
   
   a. Learn the three steps of the A.I.D. action plan:
      
      - Awareness, Interaction, and Direction
   
   b. Go through a guided example utilizing the A.I.D. action plan
   
   c. Practice the A.I.D. action plan with the group
We’ll be hinting at the answers to these questions during the training. Take some notes to refer to later!

How would you explain mental health?

What are your key takeaways from the mental health terminology video?

1. 
2. 
3. 

What can be done to reduce or prevent mental illness stigma?

What are potential signs of mental distress?

- 
- 
- 

What are some Communication Do’s and Don’ts?

Do.  
Don’t.

Do.  
Don’t.

Do.  
Don’t.

List some mental health help resources.
How would you apply the A.I.D. action plan to the practice scenario?

**Awareness.**

**Interaction.**

**Direction.**

Write down some self-care tips.
