

Selective Admission into the Professional Phase

Name: _____

Catalog Year: _____

Student #: _____

Date: _____

General Course Work (31-32 hours)

US 10097	DKS: First Year Experience.....	1
Composition		
ENG 11011	College Writing I.....	3
ENG 21011	College Writing II	3
Mathematics & Critical Reasoning		
<i>Choose ONE from Mathematics & Critical Reasoning</i>		
<i>(See Reverse)</i> 3-4		

Social Sciences

PSYC 11762	General Psychology.....	3
<i>Choose ONE from Social Sciences (See Reverse) (no PSYC)</i>		
..... 3		

Diversity requirements met? Global Domestic

Humanities and Fine Arts

Select three from Humanities & Fine Arts. One must be from Arts & Sciences and one must be a fine arts course.

<i>(See Reverse)</i>	(A&S) _____	3
_____	_____	3
<i>(Fine Arts)</i> _____	_____	3

Basic Sciences (do not take CHEM 10060)

CHEM 10050 Fund. of Chemistry..... 3
3 credits of Basic Sciences w/lab are fulfilled in major with ATTR/ESXC 25057 Human Anatomy & Physiology I

Additional

NUTR 23511 Science of Human Nutrition..... 3
3 credits of Additional are fulfilled in major with ATTR/EXSC 25058

Major Course Work

A minimum 2.5 GPA or better is required in the major			Minimum grade of C (2.0) required in all ATTR courses		
Core Requirements (69 hours)					
ATTR 15001	Intro to Clinical Athletic Training I	2	ATTR 35050	Neuro Processes for Health Care Prof.....	3
ATTR 15011	Intro to Clinical Athletic Training II (spring)	2	ATTR/EXSC 35054	Biomechanics (25057).....	3
e ATTR *15092	Practicum I in Athletic Training (15011).....	3	e ATTR 35092	Practicum III in Athletic Training (25092).....	3
ATTR 25036	Principles of Athletic Training.....	3	wATTR 43018	Ethics in Athletic Training	3
ATTR 25037	Phys Assess Techn/Lower (F only, 25036, 25057)	3	ATTR 45017	Professional Development in Ath. Train	3
ATTR 25038	Phys Asses Techn/Upper (S only, 25036, 25037, 25057).....	3	ATTR 45038	Org & Admin of Athletic Training (25036).....	3
ATTR/EXSC25057	Human Anatomy & Physiology I.....	3	ATTR 45039	Therapeutic Rehab. (25036, 25057)	3
ATTR/EXSC25058	Human Anatomy & Physiology II (25057).....	3	ATTR 45040	Pathology/Pharm for Allied Health (25058).....	3
e ATTR 25092	Practicum II in Athletic Training (15092)	3	ATTR 45041	Advanced Therapeutic Interventions.....	3
ATTR 35037	Advanced Phys Assess. Techn (25038, 25058).....	3	e ATTR 45192	Practicum IV in Athletic Training (35092)	3
ATTR 35039	Therapeutic Modalities (25036).....	3	e ATTR 45292	Internship in ATTR I (45192 & Approval).....	3
ATTR 35040	Strength and Conditioning (25057).....	2	e ATTR 45392	Internship in ATTR II (45292 & Approval)	3

*Must apply & be selected for advancement into professional phase of the program prior to taking this course-see program coordinator

Other Requirements (12-13 hours)

EXSC 35068	Statistics for Exercise Science	3	HED 14020	Intro to Medical Terminology.....	3
EXSC 45080	Physiology of Exercise (ATTR/EXSC 25058)	3	IHS 44010	Research Design/Stat Methods [PSYC 21621] (3)	
			OR SOC 32220	Data Analysis [SOC 12050] (3) & 32221 Lab (1)....	3-4

General Electives (9 hours)

I have reviewed the requirement sheet and professional requirements with an advisor and assume responsibility for remaining informed and completing my program.

Total Hours Completed _____

Hours Needed:

General Coursework	_____
Core	_____
Movement Experience	_____
Other Requirements	_____
General Electives	_____

Total for Degree _____

Important Notes:

1. A minimum cumulative 2.5 **overall** GPA and a minimum 2.5 **major** GPA is required for graduation. Minimum grade of C (2.0) required in all ATTR courses.
2. A minimum of 121 valid hours are required for graduation. A minimum of 39 upper division hours are required for graduation.
3. Advancement to the professional program is controlled through the first practicum course (ATTR 15092). In order to be eligible for this course, students must complete 30 credit hours; make formal application to the program (usu. Spring of freshman year); provide 3 professional letters of reference; complete 120 hours of directed observation under the supervision of a certified athletic trainer; have a **minimum 2.5 GPA**; secure first aid and CPR certification; successfully complete ATTR 15011, which includes an oral and written exam; secure staff evaluations and complete a self-administered evaluation; and complete an interview with the professional athletic training staff. Students are selected based upon their competitive rank using their GPA, evaluation scores, interview scores and ATTR 15011 written and oral exam scores. Those selected may enroll in ATTR 15092 during the following semester.
4. Students who successfully complete the ATTR major are eligible to sit for the Board of Certification (BOC) examination and the athletic training licensure exam by the Ohio Occupational Therapy, Physical Therapy, and Athletic Training Board.

KENT STATE UNIVERSITY
ATHLETIC TRAINING EDUCATION PROGRAM
“A CAATE-ACCREDITED, ENTRY-LEVEL PROGRAM”

Clinical Education and Admission Criteria

Athletic Training is an allied health profession dealing with health care for life and sport. Athletic Training includes the prevention, evaluation, treatment and rehabilitation of athletic injuries. Athletic trainers are certified by the Board of Certification (BOC) and licensed in the state of Ohio by the Occupational Therapy, Physical Therapy, and Athletic Trainers' Board. **The Athletic Training education program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).**

The Athletic Training education program consists of Pre-professional and Professional components. **Students must be enrolled as full-time students during both the Pre-Professional and Professional Phases of the program.** In the Pre-professional phase, the student completes a directed observation year. The Professional phase includes clinical courses and clinical educational experiences under the direct supervision of an athletic trainer.

Advancement into the Professional phase of the Athletic Training Program is selective and is limited. Limited admission will ensure that an appropriate student to clinical instructor ratio (approximately 8:1) is maintained.

After completion of the Pre-professional directed observation requirement (normally done within the first two to three semesters of full time study), formal application to the Professional phase of the program is made. Advancement to the Professional program is controlled through the first practicum course (ATTR 15092). In order to be eligible for this course, students must: make formal application to the professional phase of the program, provide three professional letters of reference, complete 120 hours of directed observation experiences under the direct supervision of an athletic trainer, have a minimum 2.5 GPA, secure first aid and CPR certification, successfully complete ATTR 15011 which includes an oral and written exam, secure staff evaluations and complete a self-administered evaluation, and complete an interview with the professional athletic training staff. After these requirements have been fulfilled, students are selected for advancement into the Professional phase of the program based upon their competitive rank using their GPA (15%), ACI evaluation scores (40%), interview scores (20%) and ATTR 15011 written (10%) and oral (15%) exam scores. Students selected into the program will have a cumulative score of minimally 70% to be considered eligible for admission. Those selected may enroll in ATTR 15092 during the following semester.

Students who are not accepted into the Professional phase may reapply the following year by completing another Pre-professional year. Due to the extensive clinical component associated with this program, students may reapply only once. Students who are not selected for the Professional phase of this program will work with the Program Coordinator to identify alternate academic programs to pursue.

Students who have transferred to KSU must complete the required directed observation period at Kent State University prior to advancement into the Professional phase of the program as described above. Prompt commencement of the directed observation period is necessary as it will take a minimum of six semesters at Kent State University to complete the clinical courses and clinical experiences in the Professional Phase. No core courses will be transferred as equivalents. All core courses must be taken at the Kent campus to ensure competency mastery. Departmental, extra-departmental and general education (Kent Core) courses will be evaluated by the ATEP Coordinator and College office for transfer of credits. Course syllabi are required for courses to be considered as transfer equivalents in the major

Clinical Experience

Once accepted into the Professional Athletic Training education program, students will begin the formal clinical education courses. Directed clinical experiences and supervised clinical experiences are also required. Although most of these experiences will be at the University, off-campus high school and clinic sites are also required. These experiences are accrued through clinical courses including practicum and internship, in no less than 6 semesters. Completion of the academic and clinical program is required for endorsement for the BOC examination.

Students interested in this area of study will be advised by the Athletic Training Program Coordinator and should contact the Program Coordinator promptly to discuss the specific entrance, selection, health and retention criteria in greater detail. Completion of the Technical Standards for Admission form must be completed by each student prior to commencing the Pre-Professional and Professional Phases of the program.

All students in the Professional Phase must have on file with the ATE PC a physical examination completed by their own physician (which will be reviewed and cleared by our team M.D.), a completed technical standards form, copies of immunization records, a completed student contract, a criminal background check, a confidentiality form, and a completed insurance form. Failure to have these documents completed will result in failure to participate in the clinical experiences in the program.

Further, Blood Borne Pathogen Training and CPR/AED training must be completed annually to be able to participate in the ATEP clinical program.
