- *Fees listed are based upon minimum prescribed flight time as listed in the chart above. Due to varying levels of student ability, the minimum times may be exceeded, necessitating the payment of overflight fees at the completion of the course. Flight fees include the purchase of required books and supplies for any associated theory course, airport course kits and most required FAA computerized testing.
- **These courses are not mandatory for the Flight Technology major. Flight courses required for the Flight Technology minor include AERN 15741, 25743, 35645, 35647, 35747.
- Weight and Balance Acknowledgement: Course fees are assigned according to the aircraft operational rates as listed on the next page. Due to weight and balance limitations for the Cessna 152 aircraft, if a student weighs 200 pounds or more, or the student and their instructor exceed the weight and balance limitation of the aircraft, the student may be assigned a different aircraft for the course and will be responsible for any additional costs that occur due to the change in the aircraft assignment.
