Executive Leadership Committee Information

New for the 2025–2026 school year, the Club Sports Executive Leadership Committee will serve as a key advisory group within the Club Sports program. This committee will consist of four student leaders representing a variety of club teams. These members will meet monthly with Assistant Director Braeden Mueller to provide feedback and guidance on the overall direction of the program. The committee's focus areas will include leadership development trainings, monthly meetings for all club officers, allocation of funds, disciplinary processes, and the review of new club applications. This initiative is designed to give student leaders a stronger voice in the decision-making process and help shape a more responsive and collaborative club sports environment.
