Disclaimers

Some network providers may have been added or removed from our network after this directory was printed. We do not guarantee that each provider is still accepting new members. Medical Mutual carefully selects the healthcare providers to include in our network. All hospitals, medical facilities and providers in our network must meet strict credentialing and licensing requirements. We regularly evaluate primary care practitioners and specialists from more than 25 medical specialties to make sure our network provides the care you need in a reasonable distance. Medical Mutual’s network of providers is not based on specific cost, quality, safety or member experience data. However, this information about our providers is very important to us. As a Medical Mutual member, you have a choice when it comes to your medical care. To help you make healthcare decisions, members with access may find additional tools with quality, patient satisfaction and cost data on My Health Plan. Some in-network hospitals may employ hospital-based providers, such as laboratories, anesthesiologists, radiologists and emergency room physicians, who are not in your plan’s network. Hospital-based providers are on-site providers who perform medical services within a hospital or health center setting.

Please see your rights and protections at:

Whenever possible, please contact your provider(s) before making an appointment. Verify the provider participates in your plan’s network, and, if applicable, is accepting new patients. Also, prior to services, discuss any applicable facility fees that you will be charged, and be responsible for with your provider. Always seek care for a life-threatening emergency at the hospital nearest to you, regardless of the network status of the hospital or its hospital-based providers.
