

Student Accessibility Services (SAS) - Disability Verification Form

Student Accessibility Services (SAS) provides support services for students with diagnosed disabilities. SAS utilizes an interactive, case-by-case approach when determining eligibility for services and reasonable accommodations. Students requesting accommodations from SAS may be required to provide documentation regarding their specific disability. This documentation should demonstrate a disability covered under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 (and the ADA As Amended in 2008). The ADA defines a disability as a physical or mental impairment that substantially limits one or more major life activities.

Appropriate documentation should include, but is not limited to, the following:

1. **Completed by a licensed professional and/or properly credentialed professional** (e.g. medical doctor, psychiatrist, psychologist, counselor, speech-language pathologist, etc.). SAS does not accept documentation completed by diagnosing /treating professionals related to the student requesting accommodations.
2. **All parts of the disability verification form should be completed as thoroughly as possible.** Where appropriate, summary and data from specific test results should be attached. If a comprehensive diagnostic report is available that provides the requested information it can be submitted in lieu of the disability verification form.
3. **A learning disability assessment should include (a) a measure of cognitive aptitude (preferably normed for adults) and (b) a measure of achievement in reading, math and/or written language.** Data should be based on age norms and reported as standard scores and percentiles.
4. **The information provided on the disability verification form is maintained by SAS according to the guidelines of the Family Education Rights and Privacy Act (FERPA) of 1974.** This information may be released to the student upon their written request.

Please note, an Individual Education Plan (IEP), a 504 Plan, or a Summary of Performance, while helpful in establishing a record of supported accommodations, may not be enough in and of themselves to establish the presence of a disability at the postsecondary level.

Please contact Student Accessibility Services at Trumbull at (330) 675-8932 with questions. Thank you for your assistance.
