FGITRND – Detail Transaction Activity

Click the "Go" button in the top right corner to begin the querying process of Account, Organization, Fund, Program, Type, Field, Amount, Description, Document Number, etc. An index can be keyed in if you are querying a specific index. If you are running a query that could encompass multiple indexes/orgs, it is best to leave all fields blank.

After you press the "Go" button, you will be able to enter your query criteria. You can query any available data field without using wildcards by setting your conditions on each field being taken into consideration. Once your conditions are set, press the gray "Go" button in the bottom right corner.

The result of your query should appear and you can scroll through the returned data using the buttons on the bottom left corner (you can increase the number of records seen per page). You may press F3 to drill down on a specific record or click the green "Start Over" button to reset the process.
