The Skill Evaluation Forms (SEF) has four primary purposes:

- 1) To evaluate if students have met the expectations (set by the CES program faculty) for specific courses
- 2) To developmentally evaluate and track students across time throughout their program. In other words, expectations in a course taken early in the program will be developmentally different compared to the expectations in a course taken later in the program (i.e., different expectations in Counseling Skills and Techniques, practicum, and internship).
- 3) To provide valuable feedback to the CES program to help continually evaluate and modify courses and program practices.
- 4) To assist in the evaluation of Key Performance Indicators / learning outcomes.

**“Expectations” on this SEF reflect what is expected at the end of this course. All scores on this SEF are considered in the student’s final grade.**

**Area 1 – 6 Instructions:** Write or type your score in the “score” column using the following scale: 0 = Does Not Meet Expectations; 1 = Does Not Consistently Meet Expectations; 2 = Meets Expectations; 3 = Exceeds Expectations.
