Introduction

Welcome to your graduate program in the College of Education, Health and Human Services. We are delighted that you have chosen our college as a place to continue your education and we will work hard to ensure that you have a successful experience. This handbook is intended as your college guide to that successful experience and, hopefully, the successful completion of your degree or certificate program. Please take some time to review the handbook and keep it in a safe place so you can access it when questions arise. Your graduate education staff will always be available if you need to talk with someone. These staff members are:

Dean’s Office, 407 White Hall:
Dr Steve Mitchell, Associate Dean for Administrative Affairs and Graduate Education, smitchel@kent.edu
Ms. Luci Wymer, Special Assistant to Dean Mitchell, awymer@kent.edu

Office of Graduate Student Services, 418 White Hall:
Ms. Cheryl Slusarcy, Academic Program Director, cslusarc@kent.edu
Ms. Valorie Adkins, Special Assistant, vadkins@kent.edu
Ms. Erin Harwood, Senior Advisor, eharwood@kent.edu
Ms. Debbie Roeder, Special Assistant, droeder@kent.edu

School Directors:
Ellen L. Glickman, Interim Director, School of Health Sciences eglickma@kent.edu
Kimberly S. Schimmel, Director, School of Foundations, Leadership and Administration kschimm@kent.edu
Frank J. Sansosti, Interim Director, School of Lifespan Development and Educational Sciences fsansost@kent.edu
Martha J. Lash, Interim Director, School of Teaching, Learning and Curriculum Studies mlash@kent.edu

Statement on Diversity, Equity, and Inclusion
Graduate education provision in the College of EHHS places value on each and every individual. All are welcome here! Our faculty and administrative staff strive to recruit a diverse student body, and we value the richness of such diversity and the uniqueness of every individual in our classrooms and on our campus. We recognize that students come to Kent State with differences in race, ethnicity, (dis)ability, age, sex, sexual identity, gender identity and expression, religious beliefs/backgrounds, socioeconomic status, and more. We respect, and seek to celebrate, these differences by providing socially just learning environments and inclusive learning opportunities. We pledge to serve as advocates and allies for marginalized persons with the goal of facilitating a successful graduate school experience for all. The following ongoing action items guide our commitment to diversity, equity, and inclusion:

- Review of handbook and other electronic or printed materials to ensure the use of
appropriate language.

- Review of graduate policies to ensure freedom from conscious or unconscious bias.
- Collaboration with the Office of Diversity, Outreach, and Development to facilitate the recruitment and retention of students from diverse backgrounds.
- Provide regular communications with the EHHS graduate student body through the listserv and the EHHS Graduate Student Senators, to ensure equal access of all graduate students to college and university resources.

Core Functions
Graduate Education and Administrative Affairs supports the mission of the College of Education, Health and Human Services by leading and/or assisting others with:

- Continuous improvement of student learning
- Professional development
- Program development
- Research and evaluation
- Accreditation
- Grant procurement
- Data collection, management, reporting
- Student affairs from admission through graduation
- Relation with the University Graduate Studies and the Ohio Board of Regents

Admission

Admission Process

General Admission
The University requires an undergraduate GPA of 3.00 for admission to graduate study. The College of Education, Health and Human Services (EHHS) recommends an applicant to have earned a graduate GPA of 3.25 for admission to the Educational Specialist (Ed.S.) degree and a graduate GPA of 3.50 for the doctoral degree. However, a particular graduate program in EHHS may establish even higher GPA requirements. A report of Graduate Record Examination (GRE) scores is required for admission into some doctoral programs and some master’s or Ed.S. majors. For admission into a doctoral program that requires the GRE, EHHS recommends an applicant submit scores at the 50 percentile or higher. Programs may also require additional indicators of potential success for admission, such as interviews and writing samples. Praxis Core exams (reading, writing, and math) are currently (until spring 2022) required for admission into initial teacher licensure programs. Applicants should check the specific requirements for their programs of interest at https://www.kent.edu/ehhs/graduate-programs. Applicants should meet with program faculty for pre-admission advising. EHHS evaluates
application files holistically considering GPA, GRE scores/Praxis Core scores (if required), professional experience, interviews, English proficiency, and recommendations. Application to a graduate degree program must be made online through the Kent State University Admissions website.

Other Types of Admission

Certificate Programs

A current/active graduate student enrolled in a degree-granting program at Kent State University (KSU) will need to apply for a certificate online through the Kent State University Admissions website. There is a non-refundable application fee of $15.

Applicants, who are not current graduate students, will also need to apply for the certificate online and provide, in addition to the $15 non-refundable application fee, the following application material:

- Two letters of recommendation. If at all possible, one of the letters should be completed by a faculty member familiar with the applicant’s academic work, and the other should be supplied by individuals familiar with the applicant’s professional achievements.
- One official transcript from the institution from which the most recent degree was earned. This transcript must have a print date within the past year. The Division of Graduate Studies will secure a transcript of those credits earned at Kent State University.
- A written statement of “Personal Goals and Professional Objectives.”

For full admission details visit Graduate Studies. Note that documents for domestic applicants are sent by email to gradapps@kent.edu. International applicants submit documents to intladm@kent.edu.

Guest Admission/Application

Guest admission is available to applicants who are new to graduate study at Kent State University.

Guest students typically take courses for job enhancement, personal enrichment, or enjoyment. Guest students may remain in this status until a maximum of six (6) semester hours of Kent State University credits have been attempted. Students cannot earn a degree through this admission status. If students wish to pursue a degree program or continue after six semester hours have been attempted, they must apply for regular admission. Guest students must meet all prerequisites for courses they plan to take.

To be admitted in this category, the applicant must have an earned baccalaureate degree from an accredited institution.
Anyone who has been denied admission to graduate study or is under dismissal from Kent State University is not eligible for guest student status. Guest students are not eligible for financial aid.

- $15 non-refundable application fee is required for guest admission.
- Transcripts are not required.

Students can apply for admission as a Guest student through the Admissions website.

**Non-Degree Admission/Application**

The classification of non-degree student is available for those who wish to take a few graduate courses for personal reasons, self-improvement, or intellectual curiosity.

This classification is for those students not working toward a graduate degree at Kent State University. Non-degree admission is valid for six years. In order to be admitted as a non-degree student one must submit:

- $15 non-refundable application fee
- *Official transcript from the institution where the most recent degree was earned

Applicants who have been denied admission to graduate studies, or is under dismissal from the University, are not eligible for non-degree student status.

It is important for non-degree students to understand that in the event they decide to apply to a degree program, a maximum of 12 hours taken either as a non-degree student or in the form of graduate coursework from another institution can be applied to a degree program, if approved. (Coursework used in a previous degree cannot be used for another degree.)

Students can apply for admission as a non-degree student at Admissions website.

*Students who have previously earned a graduate degree from Kent State University are not required to provide KSU transcripts.

**Appeals Regarding Denials of Admission**

If a student is denied admission, he or she may appeal the decision. A letter must be written and delivered to the Associate Dean of Administrative Affairs and Graduate Education, Room 407 White Hall or emailed to smitchel@kent.edu within 10 days of the notification of denial. The appeal letter should include evidence for reconsideration. Upon receiving the appeal, the Associate Dean will convene a faculty appeals committee whose decision will be final at the college level.

**English Language Proficiency requirements**

Applicants for whom English is not the first language must submit evidence of oral and written English language proficiency.

Minimum English language proficiency scores for the College of EHHS are indicated in the table below:

**Graduate Certificate Guidelines**

**Certificate Programs**
(https://solutions.kent.edu/GPS/ROADMAP/browse/gr/all?college=EH&degLvl=C)

The College offers graduate certificate programs in the following areas:

- Addictions Counseling
- Autism Spectrum Disorders*
- Behavioral Intervention Specialist*
- Career and Academic Advising
- Career Technical Teacher Education
- College Teaching
- Community College Leadership*
- Deaf Education Multiple Disabilities
- Disability Studies and Community Inclusion
- Early Childhood Deaf Education
- Early Intervention
- Gerontology
- Institutional Research and Assessment
- Internationalization of Higher Education
- Nursing Home Administration
- Ohio Superintendent Licensure* (admissions currently suspended)
- Online and Blended Learning*
Qualitative Research

* available 100% online

For more information on these certificate programs visit the individual program’s website, visit the College of Education, Health and Human Services.

Graduate students must maintain a 3.00 minimum grade point average. Graduate Catalog policy states that a graduate student who earns more than 8 credit hours of grades lower than B, or more than 4 credit hours of grades lower than C is subject to dismissal. Students who are unable to maintain academic standards of the College are subject to dismissal for academic reasons. Grades of C- or below are not counted toward completion of the certificate.

General Requirements for Certificates

1. Certificates must be completed within six years after the first graduate enrollment.
2. No more than 2 hours of workshop credit may be used toward certificate requirements.
3. Before being eligible to be awarded a certificate, students must be admitted to the certificate program.
4. Students who are currently in a degree program (master, Educational Specialist, or Doctoral) may also apply to a certificate program. Their degree-seeking coursework may be applied to the certificate coursework with advisor approval. The courses must be completed within six years and satisfy certificate course requirements.

Transfer of Credit Process for Certificates

Certificate applicants who have a previous graduate degree and are not currently seeking another graduate degree may transfer a maximum 6 credit hours with advisor approval. These credits may include hours from another KSU program or from another accredited institution, if the following conditions are met: (1) courses were at the graduate level, (2) a grade of “A”, “B” or “S” was earned, (3) credit will be less than six years old at the time the certificate is conferred at Kent, and (4) student was admitted as a graduate student at the time the course was taken.

To transfer coursework from an accredited institution (not KSU) the student completes the Request for Transfer of Graduate Credit form. The transfer of credit Docusign form should be completed in the first semester and supported by a transcript showing the grade earned. Coursework that does not have a letter grade of “A”, “B” or “S” cannot be transferred nor can the coursework be more than 6 years old at the time the certificate is conferred.

Certificate Plan of Study

It is the responsibility of each graduate certificate student to make an appointment with the assigned certificate advisor and prepare a plan of study to be filed with the Office of Graduate
Student Services, Room 418 White Hall, or via email to ogs@kent.edu by the end of the second enrolled semester. The plan of study form is available through the program area. If the plan of study must be revised after submission, the advisor must initial the change(s) on the plan of study or submit a memo to the Office of Graduate Student Services, indicating the change(s).

**Certificate Graduation/Application Process**

The application for graduation for the certificate must be completed through FlashLine no later than Friday of the University’s official first week of classes in the SEMESTER IN WHICH GRADUATION IS ANTICIPATED. Graduation applications are available through FlashLine, under Student/Resources.

Students who submit a graduation application after the posted deadline will need to complete the Late Graduation Application form, accessible on FlashLine, under Student/Resources/Graduation.

**Staying Informed**

All Kent State University students are given a kent.edu account. It is the student’s responsibility to check it regularly. Kent State University’s official correspondence with students occurs through the kent.edu student email account. Please note that your kent.edu email address will be added to the Graduate Student email list serve. The Office of Graduate Student Services maintains a web site www.kent.edu/ehhs/ogs which will keep you informed about important policies, procedures, and deadlines.

**Registration**

**Registration Information**

All registration transactions will be completed using FlashFAST. Students should log into FlashLine and click on Student/Dashboard to access FlashFAST. Registration and schedule adjustment for all campuses of Kent State University is available using FlashFAST. Students must register and make payment of fees by published deadlines before attending classes. Students who are not officially registered for a course by published University deadlines will not be permitted to attend classes and will not receive credit or a grade for the course.

All students are assigned a priority pre-registration time when they may register for classes.

**Minimum Enrollment Requirements**

Per University Graduate Studies https://www.kent.edu/graduatemis/guide-to-graduate-education, https://www.kent.edu/graduatemis/guide-to-graduate-education/section-3.3, graduate students shall enroll for at least one term each year to maintain status as a degree-seeking student. A year is defined as three consecutive terms, including summer as one term.
Meeting this minimum enrollment requirement does not guarantee the student will meet the minimum requirements of other programs, offices, or agencies.

Students not meeting the minimum enrollment requirement for maintaining status as a degree-seeking graduate student will be considered as having voluntarily withdrawn from the University. After three consecutive terms of non-enrollment, students will be inactivated as a degree-seeking student.

Students who withdrew and wish to have their graduate standing re-instated must follow the same admission procedures as those required of new applicants, including submission of a non-refundable application fee and application materials. Acceptance back into a graduate program is not guaranteed even if the student departed in good standing. Students who apply and are admitted will be re-instated under the catalog-in-force at the time of admission. The program determines how much of the previously completed work may be applied toward the graduate degree program.

Students on an approved leave of absence may return to their program of study by completing the Application for Graduate Re-Enrollment form (https://www.kent.edu/ehhs/ogs/forms).

**Course Withdrawal Information**

Withdrawal from any or all courses is permitted through the 10th week of the semester (or the prorated deadline for flexibly scheduled sections). After that time, students are considered to be committed to all remaining courses and must complete them. If students are unable to complete the semester because of extreme circumstances that first occur after the deadline, students should consult the course instructor. Any course withdrawal(s) processed after the second week of the semester will appear on the student’s academic record with a grade of “W.” Visit the Registrar’s website for more information.

**Transfer of Credit**

**Transfer of Credit Process**

In order to transfer course work from another accredited institution to KSU, students should take the following steps. 1) Complete and sign a Transfer of Graduate Credit Request form. 2) Attach an official transcript to the form listing the courses to be transferred to KSU.

Students may transfer a **maximum of 12 hours** of graduate credit taken prior to admission to their program provided:

- They completed the credits as a graduate student at another institution, as a KSU guest student, or as a non-degree student approved by the faculty advisor.
- The work is graded as A, B, or S.
- The credit is less than six (ten) years old at the time of the master’s (doctoral) degree is
conferred at Kent State University.

- In compliance with the Ohio Revised Code and the University course numbering system, credits requested for transfer into a master’s program must have been earned at the 50,000 or 60,000 level. Credits requested for transfer into a doctoral program must have been earned at the 70,000 or 80,000 level. Credits requested for transfer into a graduate certificate program must reflect the appropriate level of certificate.

Students who wish to have credits considered for transfer should petition the graduate program. The program can accept or reject such credits at its own discretion, regardless of the discipline or institution in which the credits were earned. Students have a limited amount of time to transfer in previously completed coursework: no later than the end of the second semester of enrollment in that program.

The University will not accept or transfer into a degree program any course credits that were earned in completion of another degree.

Approval for Acceptance of Graduate Coursework at East Ohio Public Universities (https://www.kent.edu/graduatestudies/forms-library)

Under specific circumstances, Kent State University graduate students may take one or more graduate courses at Cleveland State University (CSU), The University of Akron (UA), NEOMED, Ohio University (OU) or Youngstown State University (YSU) without registering as a transient student. The course should be required in the student’s program of study and be unavailable at Kent State University during the timeframe required for degree completion. For timely completion of a program of study students must be in good standing (GPA>3.0) and be within time limits for completion of the program for such coursework to be approved.

The graduate program unit at Kent State University will establish a special topics course with a graduate title that will correspond to the course title at the host university and with the initials of the host university. Registration for such a course is controlled by the home program area and will be permitted only upon receipt of the request form approved by the faculty advisor.

Degree Credits

Credit Hours Required

The number of credit hours required for a master’s degree varies by program area but is a minimum 30 credits. A master’s student must complete all work toward the degree within six calendar years after first registering for classes. Entering doctoral students must have earned a master’s degree and must complete a minimum of 90 semester hours beyond the baccalaureate degree or 60 hours beyond the master’s degree. All work for the doctoral degree must be completed within ten years. Education Specialist degrees (Ed.S.) require a minimum of 30 credits beyond the master’s level and must be completed within five years from first registration.
If a degree program course is waived, the hours must be earned through the completion of an approved substituted course.

**Workshop Hours**

A maximum of four (4) semester credit hours earned in graduate workshops may be applied to some graduate degree programs. All workshops are graded “S/U.” Some programs may be more restrictive in their acceptance of workshop hours. Students are advised to consult with their advisors regarding application of workshop credit toward degree requirements.

**Leave of Absence**

A leave of absence can be granted for degree-seeking graduate students in active status who must be away from their studies for one or more semesters for personal, family, financial, or other compelling reasons that are beyond the control of the student. Prior to applying for a leave of absence, students should consider the potential implication on funding and financial aid, including assistantships and veterans’ benefits, loan repayment, immigration status, health insurance, university housing, and time to degree completion.

International students should contact the Office of Global Education before the initiation of a leave of absence and before returning to campus to ensure compliance with immigration regulations and visa restrictions.

To be eligible for a leave of absence, a student must be seeking a graduate degree, have completed at least one full term of enrollment prior to the date a leave is to begin, be in good academic standing and be making reasonable progress toward the degree. Leaves will not be granted to students who (1) have completed less than one full term of enrollment; (2) are not in good academic standing; (3) have received an extension of the degree time limit.

Leaves of absence are normally granted for one year. The time taken on an approved leave of absence does not subtract time from the six years for the master’s degree, five years for Ed.S. degrees and ten years for the doctoral limitations or degree completion or advancement to candidacy.

The Request for Leave of Absence form should be submitted prior to the start of the term for which the leave is requested, or when the necessity for leave is foreseeable. If the need for a leave is not foreseeable, the request should be submitted as soon as possible, but no later than the last day of classes in the term during which the leave has been taken. A retroactive leave of absence will not be granted. Students can initiate a Leave of Absence request via FlashLine / Student tab / Requests and Authorizations / Leave of Absence for Graduate Students.

When a department/school grants a leave of absence, it implies the program will be willing to re-admit the student. A plan for re-admission, including any conditions that must be met, should be put in writing and clearly understood by students and their advisors prior to the start of the leave.
Students who are registered for courses must drop or withdraw from all courses prior to taking leave. Course withdrawal does not negate a student's financial obligation, and students will be held responsible for all balances due to the university. Any applicable refunds will be processed per University policy 3342-7-06.

The University does not permit course withdrawal after the tenth week of the fall and spring semesters (or the prorated deadline for flexibly scheduled sections and summer terms). Students applying for a leave of absence after the course withdrawal deadline should address grading and course completion issues with their individual instructors. To consider any variation from this rule for reasons of extenuating circumstances, the student must submit a Petition for Exception to Registration form to the University Registrar.

Students on a leave of absence are not registered and, therefore, do not have the rights and privileges of registered students, including course pre-registration and access to the libraries, recreational center, and health services. They cannot fulfill any official department or University requirements during the leave period, such as taking qualifying exams or submitting dissertation/thesis. Students on an approved leave must complete the Application for Graduate Re-Enrollment form found in the Office of Graduate Student Services forms library in order to register for classes and enjoy the rights and privileges of registered students.

To receive an extension of an approved leave, students must complete a new Request for Leave of Absence form prior to the expiration of their leave. If a student does not receive an extension and does not return to the graduate program, he or she will be considered as having withdrawn from the University. To be reconsidered for graduate study, students who have withdrawn must formally re-apply to the University and their programs of interest. Re-Applying includes an application, the non-refundable application fee, and any necessary application materials.

**Grading**

**Grade Point Average**

Only work of high quality is approved for graduate credit. Graduate students are expected to maintain a 3.0 average in all work attempted at Kent State. A student who fails to maintain a 3.0 average is subject to dismissal. In addition, in order to qualify for graduation, students must maintain a 3.0 average for all graduate coursework. Grades below “C (2.0)” are not included toward completion of requirements for any graduate degree but are included in evaluating a student’s grade point average. A graduate student who earns more than 8 credit hours of grades lower than B, or more than 4 credit hours of grades lower than C is subject to dismissal. Once grades are submitted, they are final and will not be changed except in cases of administrative error. Grades will not be changed by allowing students to do additional work (e.g., retaking exams; redoing papers; submitting extra credit papers, reports, etc.) or by using criteria other than those applied to all students in the class. In the event of a possible administrative error, the student must contact the instructor as soon as possible following the
posting of the grade. If there is a dispute over a student’s grade, the student may follow the University Academic Appeals process outlined in the University Policy Register, section 4 – 02.3.

**Grade-to-Grade Change Policy**

With the exception of the IN (incomplete), IP (in progress) and NR (not reported) marks, once grades are submitted, they are final and will not be changed except in cases of administrative error. Grades will not be changed by allowing the students to do additional work (e.g., retaking exams; redoing papers; submitting extra credit papers, reports) or by using criteria other than those applied to all students in the class.

In the event of a possible administrative error, the student must contact the instructor as soon as possible following the awarding of the grade. If the instructor is not available, the department/school chair/director should be contacted.

Grade appeals for reasons other than administrative error must follow established policy and procedures for student academic complaints; see University Policy Register, section 4 – 02.3.

Approved grade change requests for reasons other than removal of the IN, IP and NR marks must be submitted no later than the end of three consecutive terms after the grade was submitted or before the student’s degree is posted officially to the permanent academic record, whichever comes first. No challenge will be considered, or adjustment made after that period.

**“U” Grade**

The “U” grade denotes unsatisfactory performance in a course for which a regular grade is inappropriate. Credit hours are recorded as credit hours attempted, and the “U” grade is valued as an “F” in computing grade point averages. For graduate students, the “U” grade (along with the “S” grade) are the only grades to be used for thesis (6xx99), dissertation (8xx99), workshops and courses involving internship/practicum.

**“IN” Grades**

The administrative mark of “IN” (incomplete) may be given to students who are currently earning a “C” or better and are unable to complete the required work between the course withdrawal deadline and the end of classes due to extenuating circumstances. Appropriate documentation is generally required to support the extenuating circumstances. The student must initiate the request for the incomplete mark with the instructor, and it is the responsibility of the student to make arrangements to complete the incomplete work. Incompletes must be made up within one calendar year. The IN agreement between instructor and student must include the work to be completed for the course and the grade to be assigned if the work is not completed (default grade). In the event the instructor assigns an “IN” grade without a default grade, the default grade will be “F” if the work is not completed by the student. Incompletes will not be counted in the computation of grade point averages until the work is completed, at which time an appropriate grade will be assigned based on the instructor’s evaluation of the
work submitted and a new grade point average computed. Unless the course is completed or an extension is granted, Incompletes will automatically lapse to the grade designated on the Incomplete Mark form at the end of one year.

**Academic Dismissals/Reinstatements**

Students who are unable to maintain the academic standards of the College are subject to dismissal. Dismissals will be determined by the School Director in which the graduate program is situated.

A graduate student who has been dismissed from a graduate program normally may not be reinstated for work in the student’s former program or readmitted in any other program or coursework. However, after one year as a dismissed student, application for reinstatement or readmission may be made based upon evidence that former academic weaknesses have been appropriately addressed. If the particular program and the Associate Dean agree that another opportunity should be provided, conditional admission may be granted.

**Appeals for Reversal of Dismissal Action**

Appeals must be initiated within 10 working days of receipt of notification. Any appeal must be based on circumstances beyond the student’s control and of recent origin. Personal illness or deaths in the family are conditions which may be recognized.

Reasons such as outside work, disagreement with friends, “I know I can do better,” roommate problems, poor study habits, inadequate academic preparation, or other similar reasons are seldom justified.

Any appeal, which might be legitimate, and which is based on uncontrollable and recent circumstances must be submitted in writing, show that grades met the required standard before the problem occurred, and include reasons why a statement was not made prior to the end of the term or at the earliest indication of academic difficulty. Appeal submissions and relevant documentation should be sent to Dr. Steve Mitchell, Associate Dean of Administrative Affairs and Graduate Education, PO Box 5190, 407 White Hall, Kent, OH 44242, or it can be emailed to smitchel@kent.edu along with all pertinent attachments, phone (330-672-0552).

**Reapplication**

The minimum period of Academic Dismissal is twelve (12) months. Before reapplication, the student should engage in appropriate self-improvement to overcome the deficiencies that led to dismissal. Appropriate self-improvement activities employed by dismissed students may include the following: non-credit courses in study skills; assistance from counselors or other mental health professionals; and basic skills reinforcement. Other worthwhile activities may also be recognized. For example, students should furnish progress reports from instructors and/or tutors of any courses they have taken. These materials should be included in the admission application. If students intend to enroll in coursework at another college or
university before applying for readmission to Kent State University, they should first confer with their KSU faculty advisors. At times, coursework taken at another institution may not be applicable to specific program requirements in the College of Education, Health, and Human Services.

**To initiate a new application for admission, complete the appropriate application on the Graduate Studies website.** Students must follow admission and degree requirements in the University Catalog in effect at the time of their return to the University.

**Hearing Process**

Upon receipt of an admission denial or a dismissal appeal letter, the Associate Dean will, if necessary, following consultation with the School Director and Program Coordinator, convene the College Graduate Student Appeals Committee for a formal hearing with the appellant. This committee is composed of four faculty members (one faculty member from each EHHS school) and one doctoral student. Present at the hearing will be the members of the committee, the Associate Dean, and the appellant. Legal representation is not appropriate at this time in the appeals process.

Before the meeting with the appellant, the Committee will meet with program area faculty members invested in the appeal. The program faculty will be dismissed before the Committee meets with the appellant. The appellant will be afforded the opportunity to present their case to the Committee members. Members will also address questions to the appellant, the appellant will then be asked to leave the room while the Committee deliberates. The appellant will be invited back to the room to hear the Committee’s decision. The hearing will be followed by a formal notification of the Committee’s decision to the appellant via email and U.S.P.S. In the event that the appellant believes that the committee violated university policy and/or procedure, the appellant may further appeal in writing to the Dean of the College of EHHS within five (5) business days of the hearing.

**Extensions**

**Time Limits and Time Extensions**

There are specific time limits for completion of graduate degrees, certificates, and endorsements: 6 years for master’s degrees, 5 years for Educational Specialist, 8 years for Doctor of Audiology, and 10 years for Doctor of Philosophy. Certificate and licensure programs have a 6-year time limit, while endorsements are limited to 4 years. In each case, the time limit represents the maximum age of coursework at the time of program completion.

Graduate students who require an extension will complete the request for time extension form before the time limit for completion has expired. No time extension will be given to students after their time limit is up. The time extension form can be requested through the Associate Dean’s Office in Room 407 White Hall, or by contacting Luci Wymer (awymer@kent.edu).
Students must provide a reasonable timeline and rationale with their request. The student’s advisor must provide support for the requested extension. The extension may be granted with qualification or the extension may be denied.

**Advising and Plans of Study**

The relationship between graduate students and their advisors is an important factor in graduate student success. The advisor provides academic and professional guidance to graduate students throughout their program of study. Advisors have been known to assume a variety of roles in graduate students’ lives from providing opportunities for publishing and conference presentations to lending a listening ear.

**Advisors/Plan of Study Masters and Educational Specialist Students**

Students will be assigned an advisor who will inform them of program requirements during the first academic year of enrollment in graduate study. Advisors acquaint students with the requirements and regulations guiding their program. **Courses used to fulfill requirements for one degree cannot be used to fulfill requirements for another degree.**

Students are free to choose a different advisor at any time if they wish; however, they must file a Change of Advisor form, obtained from their school office. Each program has a Plan of Study, which students and their advisors must complete and submit to the Office of Graduate Student Services, Room 418 White Hall or via email to ogs@kent.edu . **Master’s degree and Educational Specialist students will be blocked from registering for the third semester after admittance (including summer) until a Plan of Study has been filed in the Office of Graduate Student Services.**

**Master’s Thesis/Project**

**Appointment of Thesis/Project Director and Thesis/Project Committee**

When a student is ready to begin thesis or the project planning, he/she should meet with the faculty member who has been assigned as graduate program advisor. If the student is considering a topic outside the advisor’s area of expertise, the advisor will arrange for the student to meet with another faculty member for advice on the topic.

The advisor and the student are responsible for securing the consent of a qualified professor to act as director. The advisor may serve as director if this arrangement is agreeable to both parties.

The director will guide the student during the development of the thesis or project proposal. The director will also assist the student in the selection of two other graduate faculty members appropriate to advise and serve on the committee.

**Approval of Thesis or Project Topic**
The students are to prepare a thesis or project topic proposal as directed by their thesis or project advisors. The proposal is presented to their committee for review and approval.

When the committee is satisfied with the proposal, the student will secure the signature of the director and all committee members on the Master's Thesis or Master's Project Committee & Proposal. This form, accompanied by a copy of the abstract, is initiated in Docusign (https://www.kent.edu/ehhs/ogs/forms) no later than the first day of the term in which the student plans to graduate.

**Registration for Master’s Thesis ONLY**

Upon approval of the thesis topic, the student is required to register continuously for Thesis I (6x199) each semester (fall, spring) for a total of 6 credit hours. A student who has completed the required 6 credit hours of Thesis I but has not finished the thesis is expected thereafter to register continuously for Thesis II (6x299) each semester (fall, spring) until all degree requirements are met. Students who are planning to defend their thesis in summer or early fall, or who are requiring access to university resources during the summer months — including, but not limited to, feedback or mentoring from their thesis advisors, use of university buildings and other research resources — must register for thesis in the summer term. Registration must be for 2 to 6 credit hours per semester, distributed over 1 to 3 semesters, as necessary. No more than 6 credit hours of Thesis I credit may be counted toward completion of degree requirements.

**Registration for Master’s Project ONLY**

Upon completion of coursework, students are required to register for 6 hours of Master Project. Registration must be for 2 to 6 credit hours per semester, distributed over 1 to 3 semesters, as necessary. Continuous registration for Master Project is not required.

**Completion of Thesis or Project**

Students completing the thesis must consult the Guidelines for Preparation of Theses and Dissertations regarding thesis style and form. The committee director will act as consultant during the time the thesis or project is being completed. Students must complete the thesis or project to the satisfaction of the committee. Students should deliver copies to each member of the committee at least ten days prior to the oral defense of the thesis or project.

Students will arrange for an oral defense of the thesis or project with the various members of their committee. The entire three-person committee is required to be present for the defense meeting. Upon completion of the defense, the student will initiate the Report of Oral Defense form (https://www.kent.edu/ehhs/ogs/forms).

**Thesis only:** Students must adhere to established EHHS deadlines in applying for graduation, scheduling the oral defense of thesis or project, and electronically submit the thesis. Please note that EHHS deadlines are earlier than the university deadlines to allow for format checking. Deadlines can be found online at www.kent.edu/ehhs/ogs.
Remote Participation in a Thesis Defense

Under normal circumstances, all members of a thesis committee must be physically present in the examination room during the entire thesis defense and during the committee’s private deliberations following the examination. In most cases, the chair of the thesis committee is expected to be physically present in the examination room. Students enrolled in a fully online degree program are not required to be physically present for their thesis defense. For on-ground and hybrid (online/on-ground) degree programs, remote participation by web conferencing is permitted only if the student and/or committee member has obtained permission in advance from the chair of the thesis committee in consultation with committee members. They must provide a compelling reason and/or explanation as to why they cannot be physically present.

With any thesis defense that is approved to be conducted with remote participation, the following rules must be enforced:
- The web-conferencing software to be used allows all participants to see and hear each other during the entire defense.
- The defense remains open and available to the university community.
- The program pays for any costs associated with the remote participation.
- The chair of the thesis committee is responsible for ensuring that all requirements for remote participation are met, that the remote participation was uninterrupted and, if interrupted, that the defense was paused until all remote participations were fully restored.
- Participation by telephone only is not permitted under any circumstances.

Finalization of Thesis

1) Approval/Signature Pages

Following successful defense of the thesis, students can immediately initiate the Docusign approval/signature page form (https://www.kent.edu/ehhs/ogs/forms).

2) Upload to Electronic Thesis and Dissertations

a. Students do not need to submit a paper or electronic version for review prior to upload.

b. Students should consult the Office of Graduate Student Services, Master’s Students website for information on uploading thesis.

c. The Associate Dean’s assistant will be notified electronically when students have uploaded their thesis.

3) Review of Thesis

a. The Office of Administrative Affairs will pull a copy of your document from the ETD site and review for any formatting issues.

b. The office will be in touch with you via your KSU email.
c. Once you and/or your editor have made the appropriate corrections you will re-upload to OhioLINK, following the instructions provided.

  d. The document is again reviewed for appropriate formatting.

  e. Once all corrections have been made, submit the final revised version on the ETD site.

**Finalization of a Project**

1) Students must follow the established deadline for applying for graduation.

2) Students must defend the completed project by the *EHHS* posted deadline.

3) The project must be submitted to project director by the end of the semester in which student plans to graduate.

4) Each term deadlines are posted on website [www.kent.edu/ehhs/ogs](http://www.kent.edu/ehhs/ogs).

**Initial Licensure**

**Student Teaching**

Students who are enrolled in academic programs that require student teaching must apply for student teaching through the Office of Clinical Experience and Student Teaching, 304 White Hall one year in advance of student teaching. Please visit the *Office of Clinical Experiences and Student Teaching* for application details and deadlines. Students must adhere to required deadlines and failure to do so could result in delays in the assignment of a student teaching placement.

**Licensure**

Graduate students enrolled in programs which result in initial or additional licensure will need to take the licensure examination(s) appropriate to their fields of study. Students should consult the *Assessments Required for Licensure* published on the website for the Vacca Office of Student Services for more detailed information.

**Fingerprinting**

The Ohio Department of Higher Education requires anyone applying for a new license to be fingerprinted. Applicants who have lived continually in Ohio only need to submit the Bureau of Criminal Investigation form. All other applicants must submit the Federal Bureau of Investigation form as well. Fingerprinting is done electronically in the *Instructional Resource Center*, Room 221 White Hall.

**Graduation**
**Graduation Application Process**

Application for graduation must be completed **no later than Friday of the first full week of classes in the semester** in which graduation is anticipated. Students who submit a graduation application after the posted deadline will need to complete the Late Graduation Application form, accessible on FlashLine, under Student/Resources/Graduation.

All required coursework, internships and practica must be completed before students will be cleared for graduation. Students who are on the graduation list will receive an email from University Events and Protocol. This letter will contain pertinent information regarding cap and gown rental/purchase and graduation ceremony attendance. If any questions or problems arise once the graduation audit process has begun, students will be notified. Problems communicated to the student that are not resolved prior to the deadline will result in student’s removal from the graduation list. At that time, the students will receive a letter explaining the reason for the action and procedures for reapplying for graduation.

**Reapplication for Graduation**

Those applicants who do not meet the requirements for graduation by the posted deadline must reapply for graduation. The deadlines for application for graduation hold for reapplication for graduation.
DOCTORAL PROGRAMS

Although we have attempted to answer the most frequently asked questions by doctoral students, it is assumed that you will have many other questions as you proceed through your program. Please refer to this handbook to answer many of these questions. Should you have further questions, please do not hesitate to contact your advisor or the personnel in the Office of Graduate Student Services (OGSS) in Room 418 White Hall or via email at ogs@kent.edu

The procedures, rules, and regulations stated in the following sections are valid under the normal time limits for earning the Ph.D. degree. Typical time to completion is as follows:

- Five years from time of admission to complete coursework and candidacy examinations.
- Five years from the time of reaching candidacy to completion of the dissertation and awarding of the Ph.D. degree.

Refer to catalog regarding time extension; however, if a student has not completed comprehensive exams, then an extension will not be considered.

The various forms required by a Doctoral student may be downloaded by going to www.kent.edu/ehhs/ogs/forms.

Advisor/Coursework Phase

Areas of Study and Advisors

The College of Education, Health, & Human Services (College of EHHS) doctoral programs are as follows:

- Audiology
- Counselor Education and Supervision
- Cultural Foundations
- Curriculum and Instruction
- Educational Administration—Higher Education Administration
- Educational Leadership K-12 (Admission Suspended)
- Educational Psychology
- Educational Technology
• Evaluation and Measurement
• Exercise Physiology
• Health Education and Promotion
• Interprofessional Leadership
• School Psychology
• Special Education
• Speech Language Pathology

The letter of admission to the Doctoral program specifies a student’s major and names the major advisor assigned by the program coordinator. In some instances, a second faculty member is assigned to serve as a co-advisor or to provide special assistance throughout the advisory phase. When reading this handbook, students having a committee headed by co-advisors should assume that the duties and responsibilities ascribed to the major advisor will be shared.

**Minor, Cognate, and Minor Concentration Program Options**

The College of EHHS does not require a student to pursue a minor area of study (or a minor area of concentration), an interdisciplinary cognate, or minor concentration. If you are interested in a minor, cognate, or concentration, please see your program coordinator.

**The Advisory/Coursework Phase Committee**

The major advisor or co-advisors play an important role in the planning of the doctoral program. It is the responsibility of the committee to approve the student’s plan of study and residency plan. Doctoral students will be blocked from registering for the third semester after admittance, including summer, until a Plan of Study has been filed in the OGSS. The plan of study must be attached to the Advisory Phase Form, found at https://www.kent.edu/ehhs/ogs/forms.

**Structure of Typical Committees**

The typical committee for a program containing a single major and a single minor or cognate appears below. The committee must contain at least two members if student is not seeking a minor or cognate.

• Major advisor (or co-advisor) assigned by the program area
• Second member (or co-advisor) may be from the major program area
• Minor or Cognate (Optional)
Committee Members

The major advisor and co-advisor or second major advisor may be full or associate members of the Graduate faculty in the student's major. If the major advisor has associate rank, the co-advisor or second major advisor must hold full graduate faculty rank.

The minor or cognate advisor must be a full or associate member of the graduate faculty of the department in which rank is held. This individual will assist the student in selecting coursework and preparing for comprehensive examinations. The minor or cognate advisor will write the questions for the written comprehensive examination in the minor or cognate area of specialization.

The Program Plan of Study and Residency Plan

Doctoral programs are highly individualized and must be carefully documented. It is suggested that the entire committee meet to review and discuss the plan of study and residency plan with the student before it is finalized. The plan agreed upon by the student and committee constitutes the official program of the doctoral student. The doctoral plan of study should not include courses other than those at the 70,000 and 80,000 levels. Doctoral students must be enrolled in courses only at those levels. Courses used to fulfill requirements for one degree cannot be used to fulfill requirements for another degree.

The Plan of Study and Residency Plan

The plan of study and residency plan should be approved by your advisors and filed in the Office of Graduate Student Services (OGS) by attaching the plan of study to the Advisory Phase Form, found on the OGS website: https://www.kent.edu/ehhs/ogs/forms. Students will be blocked from registering for the third semester after admittance (including summer) until a Plan of Study has been filed in the Office of Graduate Student Services.

The College of EHHS does not specify the number of hours of coursework to be included in the doctoral major. This decision is made by the advisory phase committee after a thorough review of a student's background and goals. University policy mandates that a student must complete a minimum of 90 semester hours beyond the bachelor's degree or 60 hours beyond the master’s degree in order to qualify for a doctoral degree.

Because a variety of important seminars, internships, and individual courses are graded according to an S/U system, there is no set limit to the number of S/U graded courses that may be included in a program. Students and committees are expected to carefully consider the total plan of study and weigh the merits of each course listed in the plan of study.

Changes in an approved plan of study may be made by completing an Advisory Phase Form, found on the OGS website: https://www.kent.edu/ehhs/ogs/forms, utilizing the checkbox “Revised” and attaching an updated plan of study, noting the changes/updates, after being endorsed by members of the advisory committee.
Completing the Plan of Study and Residency Plan Form

1. Coursework Comprising the Advisory Phase of the Program

The list of courses to be completed during the advisory phase of the student’s program should be presented on the program plan of study provided by each program area.

The dissertation preparation and writing for publication courses in Educational Administration—Higher Education (HIED) and Counselor Education and Supervision (CES) are open to all doctoral students. Those courses will be publicized to program areas as opportunities for their doctoral students.

Students who have elected a double major or minor should present plan of study information for each of the major or minor areas of study.

2. Residency Plan

Program areas will determine their own residency requirements. Residency requirements should be written in the square provided on the Advisory Phase form or attached to the plan of study.

**Residency (Purpose, Rationale, and Options)**

Doctoral work across the diverse specialties addresses several goals:

- a. Development of a comprehensive knowledge base in both the specialty and the broad field.
- b. Development of the attitudes, values, reasoning, and technical tools of scholarship and practice appropriate to the specialty.
- c. Socialization into the scholar-practitioner role of professor, counselor, administrator, or researcher.
- d. Mastery of advanced skills and knowledge that enables the student to obtain the appropriate certification or licensure required for many professional roles.

The purpose of residency is to provide doctoral students professional experiences in addition to their programs of coursework and previous employment activities.

Residency is directed toward enabling the doctoral student to move beyond coursework toward internalizing and personalizing scholarship.

The traditional definition of residency (living in the academic environment for a full academic year) assumes that the student will acquire the attributes of a
scholar and professional through acculturation. While such an experience is of great value in developing colleagueship and providing opportunity for more intensive study, it does not by itself guarantee synthesis. For part-time doctoral students whose roles and responsibilities make it virtually impossible to engage in full-time, campus-based study, achieving synthesis is an especially great challenge, and the need for programmatic assistance is particularly acute.

Residency, as it is defined by the College of EHHS, is a period in which students are engaged in personalized scholarship through the following broad types of intensive activity:

a. Examination/analysis of various forms of investigation.

b. Examination/analysis of issues, problems, and trends within and across practice and research.

c. Development of a personal and professional perspective through synthesis of the various points of view and models provided in theory and practice.

d. Criticism of ideas, investigations, and practice.

e. Development of colleagueship that cannot be attained through part-time or isolated study.

Residency can be viewed as the means by which doctoral students pursue personal and professional goals not addressed through coursework and graduate appointments. It is assumed that plans for a residency will be developed jointly by the student and the advisory phase committee. It should be recognized that a given number of credits accumulated over a prescribed amount of time does not necessarily provide the context needed to promote synthesis.

3. Tentative Fulfillment Dates

This section of the program plan of study provides the student with an opportunity to "project" the doctoral studies program in a time frame. While not absolute, the plan is intended to provide general time guidelines for accomplishing the task.

4. Approval of Plan of Study, Advisory Committee, and Residency Plan

Each member of the advisory phase committee is asked to sign to indicate approval of the plan of study and residency plan. Because it may be helpful for the student to refer to the plan from time to time, it is suggested that the student retain a copy of the plan of study and residency plan.
5. If a plan of study has been filed and the student wishes to change the Advisory Committee, please submit a new Advisory Phase form and mark “Revised” on form.

**Doctoral Comprehensive Examinations**

All doctoral students will take comprehensive examinations and **must be registered during the semester of comprehensive exams.** If a student is not otherwise registered for coursework, they must register for a one credit hour research experience in the program area during the comprehensive exam semester. This will be supervised by the program coordinator.

By filling out the *Permission to Take Doctoral Comps During Final Semester of Coursework* form, found within the Comprehensive Exam Packet, and with approval of the comprehensive examination committee and the program coordinator, doctoral students may elect to sit for comprehensive exams as early as the final semester of their coursework or to wait until the completion of their required course work. Some program areas will require all coursework to be completed before sitting for comprehensive exams. Doctoral students will not be registered for Dissertation I until they have successfully completed written and oral exams and satisfied any “IPs” or “INs” received in their final semester of coursework.

**Formats**

Program areas define the process for their examination process as one of the following nine formats. The doctoral advisor/committee makes the final determination about which format is followed:

**Format 1:** Eight hours in length, written in four-hour long sessions on two consecutive days and proctored by departmental faculty or staff. The College of EHHS will provide the appropriate technology and reserves the right to require students to use laptop computers.

**Format 2:** Four take-home questions given. Students may spend two weeks on each question for a total of eight weeks.

**Format 3:** Two take-home questions and a portfolio. The portfolio is to be turned in when the questions are given. The questions must be completed within four weeks. Students may spend two weeks on a question.

**Format 4:** Exercise Physiology: Five questions taken over two and a half days totaling 20 hours of writing time.

**Format 5:** Speech Pathology and Audiology: No established number of questions covering the major and two minor areas taken over 4-5 days totaling 16 hours of writing.

**Format 6:** Counselor Education and Supervision – Five take home questions given. Students may spend one week on each question for a total of five weeks.
Format 7: Educational Administration-Higher Education your faculty advisor, with consultation with your second HIED faculty member, will prepare four questions for you that are based on Ph.D. required courses and your research specialization (e.g., quantitative, qualitative, historical, legal, etc.). Two questions will be emailed to you each of two successive days. One rewrite is allowed and only one oral defense is permitted.

Format 8: Evaluation and Measurement has the student prepare a portfolio containing three essays and a Dissertation research pre-proposal. Three essays from three major programmatic areas (i.e., Statistics, Research Methods, and Measurement) are submitted. These essays are derived from previous coursework or independent research conducted in those areas since admission to the program. Additionally, students will prepare and submit a Dissertation pre-proposal of approximately ten pages containing a research topic, aims/objectives, research questions, and specifically, detailed Methodology. Dates administered through the School.

Format 9: Interprofessional Leadership doctoral students create a portfolio per the guidelines in their program handbook. Four coursework artifacts, each accompanied by a narrative and a reflection, plus an abridged dissertation proposal are required.

In addition, to assess the ability to communicate knowledge verbally, students will complete an oral examination. The intent in both written and oral exams is to evaluate the student’s comprehensive knowledge of the field of study. The committee will submit their evaluations within a timely manner, usually within four weeks of the student’s writing. Satisfactory completion of both exams is required to enter candidacy. Scheduling of exams will be determined by the program area.

Procedure

Students apply for comprehensive exam by completing the Application for Ph.D. Major Comprehensive Examination, found in the Comprehensive Exam Packet, found at: https://www.kent.edu/ehhs/ogs/forms.

Each program area will provide documentation for which of the comprehensive exam options they will be using. Formats will be reviewed occasionally by the Associate Dean in order to check for consistency among and within programs.

Student will submit a Comprehensive Exam Packet, which includes the Comprehensive Exam Committee form as part of the application process. The committee will include a minimum of two members from the student’s program area. Optional members may be included from outside the program area and in some programs; the outside member(s) will contribute a question and be responsible for evaluating that question. If any course changes were made after filing the Plan of Study, the student will also need to submit the Plan of Study Changes form, included in the Comprehensive Exam Packet.

Office of Graduate Student Services will notify the school staff person responsible for coordinating exams when student is cleared to take the exam. An email will be sent to the student, the staff person, and each comprehensive committee member. This email will list the
committee members so that the school staff person knows whom to contact for questions, and which option the student has requested. Once a student receives an email from the Office of Graduate Student Services, the student will be responsible for contacting the staff person in the School to schedule a time to take the exam or to pick up questions if the exam is take-home.

The School will be responsible for supplying student with the necessary equipment and/or materials. A computer and disk, a tablet of paper, etc. and proctoring the exams.

The committee should respond within two weeks of completion of the student’s writing in a meeting with the whole committee and the student.

All programs allow two attempts to pass written exam; some may allow two attempts to pass the oral exam as well. The chart below lists program area policies.

The Written Comprehensive Examination for Candidacy form will be initiated by the student and sent to their comprehensive exam committee prior to their written exam.

If the student has designated a minor or cognate (as defined by the program) and requires a comprehensive exam, then the student will be required to successfully complete the minor comprehensive exam before completing the major comprehensive exam.

The examination committee will determine when the student has permission to schedule the oral examination.

**The Oral Examination**

When the major written examination has been evaluated as satisfactory, students contact their advisors for guidance in preparing for the oral examination. It is the responsibility of the major advisor to make arrangements for convening the advisory committee for the oral examination which must be completed within 60 days after a student has passed the written examination.

The student who elects a double major must complete only one oral examination. The major advisors will collaborate in planning for the examination. The oral examination is chaired by the major advisor, and all members of the advisory committee are expected to attend and participate in the questioning. At the discretion of the committee, the student may be questioned on any content pertaining to the doctoral program. Following completion of the questioning, the student is dismissed, and the committee evaluates the examination performance.

For the student to successfully complete the oral examination there must be no more than one negative vote. If the advisory phase committee's vote is favorable and the student has completed all coursework, the student is advanced to Ph.D. candidacy.

The student is responsible for initiating the Oral Comprehensive Examination for Candidacy form and having it sent to the exam committee prior to the oral exam.

Any student who will be taking comprehensive exams during the same semester courses are taken will not be able to move forward with dissertation registration until the course, or courses, have been completed.

The Office of Graduate Student Services will notify the department that the student has passed and to register the student for Dissertation I.

**The student will be given a two-year time limit from the end of the semester in which they successfully defend the comprehensive exam to submit and successfully defend the dissertation proposal. Failure to adhere to this timeline may result in your dismissal from the program.**
Candidacy Phase

At this point in the doctoral program, the student is designated a "Doctoral Candidate."

Dissertation Registration

Registration for Dissertation I or the advancement to candidacy will not occur until the semester following satisfactory completion of both the written and oral exams along with any “IPs” or “INs” received in their final semester.

Each doctoral student, upon admission to candidacy, must register continuously for Dissertation I (8x199) each semester (fall, spring) for a total of 30 credit hours. A student who has completed the required 30 credit hours of Dissertation I but has not finished the dissertation is expected, thereafter, to register continuously for Dissertation II (8x299) each semester (fall, spring) until all degree requirements are met. Students who are planning to defend their dissertation in summer or early fall, or who are requiring access to university resources during the summer months — including, but not limited to, feedback or mentoring from their dissertation advisors, use of university buildings and other research resources — must register for dissertation in the summer term.

The fee for Dissertation I or II can be determined by consulting the Schedule of Classes for the appropriate term. A student who enrolls in an additional course or courses must plan to pay additional tuition fees for the courses selected.

All doctoral dissertation registrations permit the student the use of University facilities including library and research equipment.

Students must be registered for dissertation credit in the term in which graduation is anticipated.

Dissertation Phase Committee

Dissertation Phase Committee form must be submitted by the end of first semester of Dissertation I.

Dissertation Phase Committee Form

The student is responsible for initiating a meeting with the dissertation director for the purpose of identifying a committee to guide preparation of the dissertation. Once this has been done, the Dissertation Phase Committee form must be completed. It can be found at https://www.kent.edu/ehhs/ogs/forms. If, due to faculty leave of absence or illness, it becomes necessary to change the committee, a “Revised” committee form must be filed by accessing the DissertationPhase Committee form and utilizing the checkbox “Revised”.

Although a general research topic should be selected prior to choosing a committee and filing the form, it is not expected that the student be able to state the exact title of the dissertation at this point. The title provided on the Dissertation Phase Committee form is assumed to be an approximation of the eventual title.

Committee Structure

The dissertation phase committee consists of a minimum of three members of the graduate faculty: a director representing the student’s program area, a co-director or second member with content area expertise (might be from inside or outside the student’s program area), and a member outside of the student’s program area (to potentially include a member from outside the university). Co-advising of dissertations, with various faculty expertise brought to bear on dissertation topics, is encouraged. A graduate faculty representative joins the committee prior to the dissertation pre-defense. The dissertation director (and co-director if applicable) and graduate faculty representative must be full members of the University Graduate Faculty, and at least one other committee member must also have full graduate faculty status. If a student wishes to include a member of the graduate faculty from another institution, a graduate faculty membership form (including a current vita) requesting temporary graduate faculty membership must be requested by the department chair and forwarded to the Office of Administrative Affairs for review by the Associate Dean.

The advisory phase major advisor may serve as the dissertation director, but the student may change to another faculty member from the same doctoral program area. The remaining members of the dissertation phase committee are selected by the doctoral candidate and the dissertation director based on the nature of the proposed study. The committee may include one or all the members of the advisory phase committee, but there is no obligation to involve any member of the advisory phase committee.

In summary, the dissertation phase committee is constituted as follows:

- Dissertation Director--(must be a full graduate member of the College of EHHS faculty and a representative of the student’s program area. The dissertation director or a staff member in the Office of Administrative Affairs can assist in determining the status of graduate faculty members under consideration as committee members.)
- Dissertation Committee Member or Co-Director, with subject area or methodological expertise.
- Outside Member (can be from outside the institution).
- Optional Member(s)

NOTE: Dissertation directors are required to have at least co-directed a dissertation to completion before directing in a solo capacity. Exceptions to this must be approved by the School Director and the Associate Dean.
**Dissertation Models**

In addition to the traditional dissertation model, faculty in some programs will permit an alternative model. This model would consist of a minimum of two manuscripts that would be intended for publication. Each program area can decide whether the doctoral candidate would be permitted to utilize this alternative model, and each dissertation advising committee must grant approval to any candidate wishing to pursue this option prior to (or at) the dissertation proposal defense.

Regardless of the model used, standard “Organization of Front Matter” will apply as outlined in the Dissertation Guidelines.

**Traditional Dissertation Model, to include the following elements:**

- Abstract*
- Chapter 1. Introduction *
- Chapter 2. Literature Review to establish conceptual/theoretical base *
- Chapter 3. Methodology *
- Chapter 4. Results
- Chapter 5. Discussion/Interpretations/Implications
- References
* included in the dissertation proposal

**Alternative Dissertation Model**

- Abstract*
- Chapter 1. Introduction, statement of problem, purpose, hypotheses*
- Chapter 2. Literature Review to establish conceptual/theoretical base *
- Chapter 3. Methodology*
- Chapter 4. Manuscript 1 (in submission form including separate abstract)**
- Chapter 5. Manuscript 2 (in submission form including separate abstract)**

Notes:

i) Each manuscript (purpose/aims, research questions, etc.) must be approved by the advisor(s) at proposal stage.

ii) Manuscripts 1 and 2 will include elements of chapters 1-3.

iii) Manuscripts 1 and 2 should be research-based and developed from data collected by the
student.

iv) Manuscripts 1 and 2 should contain discussion and interpretation/implications sections pertaining to the research question(s) on which the manuscript is based.

v) Manuscripts 1 and 2 should contain their own separate reference sections, in addition to the overall dissertation reference section.

• Chapter 6. Summary - overall conclusions.

• References

* included in the dissertation proposal

**The dissertation is singularly authored. At the point of journal submission, each manuscript may be either singularly authored by the student or reflect the student as first author of a collaborative piece. In the event of collaborative work the student will be first author and the advisor(s) last author. The major advisor(s) ensures that the student is responsible for data collection and write up of the dissertation.

*** Manuscript 2 may be a grant proposal or review article based on the findings from manuscript 1. A grant proposal/application should be formatted and include all the information and sections required by a specific funding agency for a specific grant mechanism. This may include: background, research methods, budget, timelines, biosketch, etc. In other words, upon completion Chapter 5, it should be ready to submit for funding. Students must have committee approval for a grant proposal/application at the time of dissertation proposal defense. A review article will focus on the main topics of interest within the student’s dissertation and can be formatted per the guidelines of a peer-reviewed scholarly journal of the student/committee’s choosing.

Format/Style

• Regardless of the model, dissertations should be written in an appropriate style. The most recent version of the APA style manual is preferred though this might vary if the alternative model is used, if for example a particular journal requires a different style of writing. Please inform the Office of Administrative Affairs and Graduate Education if a style other than APA is being used. It then becomes the responsibility of the student and chair to review the formatting to ensure accuracy. The Office of Administrative Affairs will not review for formatting if a style other than APA is used.

• Regardless of the model and style used, it is the responsibility of the author (i.e. the doctoral candidate) and the dissertation advisor(s) to ensure that the manuscript is uploaded to OhioLink in finished condition, appropriately formatted, edited, and referenced.

Dissertation Proposal

Contents of Proposal
The dissertation proposal consists of a detailed plan for the proposed research study.

The proposal should be as specific as possible to ensure that the dissertation phase committee and the student know exactly what the student plans to do, as well as why, how, when, and where the student plans to do it. The importance of the dissertation proposal should not be minimized. The proposal becomes a contract between the student and the dissertation phase committee. The more accurate, complete, and detailed the proposal, the easier it should be to complete the dissertation.

Often a dissertation proposal will include the first two-three chapters. The topic under study should demonstrate a strong relationship to a theoretical base and should represent a thorough understanding and analyses of the related literature.

**Dissertation Proposal Defense**

A formal dissertation proposal defense, conducted by the student’s full dissertation committee, should include a rigorous review of the topic and methodologies to be used in this study. Once the student and the dissertation director are satisfied that the proposal (often the first
chapters of the dissertation) is ready to present to the dissertation phase committee, copies of the proposal are distributed to the members of the committee. The committee should have a minimum of one week to study the proposal prior to the dissertation proposal approval meeting. The dissertation director is responsible for arranging the time, date, and place of the dissertation proposal approval meeting.

When the dissertation phase committee has approved the proposal, the Notification of Approved Dissertation Proposal form should be completed. The names of members of the dissertation phase committee should be typed on the appropriate lines and signatures obtained. This must be accomplished no later than the first day of the semester of graduation.

**Human Subjects Review**

Even though it may appear that risk to research subjects or participants is negligible, any research that involves human subjects must have approval from the University Human Subjects Review Board before proceeding.

The doctoral student and the dissertation director are responsible for obtaining the approval to use human subjects in research. An Application for Approval to Use Human Subjects form may be secured from the Division of Research and Graduate Studies, Cartwright Hall or downloaded from the web at: [https://www.kent.edu/research/office-research-compliance/research-human-subjects-irb](https://www.kent.edu/research/office-research-compliance/research-human-subjects-irb). If human subjects are involved, a copy of the approved Human Subjects Review statement must be submitted to The Office of Graduate Student Services via email at ogs@kent.edu.

**Guidelines for Preparation of Dissertation**

The Office of Graduate Student Services mails a letter to doctoral students when they attain candidacy and informs them of the availability of the College of EHHS Guidelines for the Preparation of Theses and Dissertations on its website:

[Guidelines for Preparation of Dissertation](https://www.kent.edu/research/office-research-compliance/research-human-subjects-irb)

*Guidelines* is extremely helpful in providing information to the doctoral candidate and typist on specific style requirements of the College of EHHS.

The Seventh Edition of the Publication Manual of the American Psychological Association (2020) is the required guide. (If the advisor prefers an alternative style guide, this must be cleared thru the Office of Administrative Affairs and Graduate Education, Room 407 White Hall)

**Preparation for Defense of Dissertation**

It is important to note that application for graduation must be made by Friday of the first full week of classes in the semester in which graduation is anticipated. Refer to the Graduate Schools Catalog or inquire in the Office of Graduate Student Services for important dates.

There are several levels to the oral defense of the dissertation:
1. Appointment of the Graduate Faculty Representative

2. Pre-Defense

3. Defense

Selection of Graduate Faculty Representative (GFR)

When the committee determines that the student is ready for pre-defense, the advisor completes a request form for the GFR. Suggestions for an appropriate GFR should be made by the dissertation advisor in consultation with the doctoral student. A Graduate Faculty Representative form must be completed and submitted to the Associate Dean’s assistant (awymer@kent.edu) in Room 407 White Hall. The GFR is selected from a list (provided by the advisor) of three full members of the Kent graduate faculty who have directed at least one dissertation to completion and who are members of a program areas different from the major and minor area of study of the doctoral candidate. It is acceptable for the GFR to serve as moderator during the dissertation defense.

- Any qualified faculty member of Kent State University can serve as a Graduate Faculty Representative (GFR). Qualified individuals are determined through the University review process which assigns status to individual faculty members.

- Suggestions for sources, departments, or program areas with relevant expertise for GFR are offered, when possible, by the advisor or co-advisor of the dissertation committee or other members of the committee in counsel with the advisor(s). The Associate Dean for Administrative Affairs and Graduate Education makes the final appointment.

- The advisor(s) of a doctoral dissertation MAY request the addition of a GFR earlier in the process when the proposal is emerging, in which case that GFR would participate in the proposal process, they could continue and serve as GFR for the dissertation pre-defense and defense as well. They do not serve as another regular committee member.

- A GFR must be appointed prior to the dissertation pre-defense. The GFR participates in the pre-defense and has a vote.

- After a dissertation defense, the dissertation evaluation form completed by the GFR along with the oral defense approval form is submitted by the candidate to the Associate Dean for Administrative Affairs and Graduate Education. The candidate and advisor(s) ensure all forms are present at the defense.

If requested, he or she may also serve as moderator for the oral defense.
Pre-defense Dissertation Committee Meeting

The pre-defense meeting is scheduled by the dissertation director when it appears that the document may be ready for defense.

The dissertation phase committee, plus the graduate faculty representative, meet to discuss the dissertation and to determine whether the dissertation is ready for the final oral defense. The doctoral candidate is not present at this meeting. The doctoral candidate must allow the dissertation committee a minimum of ten days to read the Pre-defense copy before the pre-defense meeting.

A formal decision should be made by the committee in the absence of the doctoral candidate as to the state of readiness of the manuscript. The following are among possible decisions:

1. There is unanimous agreement that the dissertation is ready for the oral defense. Individual committee members may have some suggestions for improvement, but they do not wish to see revisions before the defense copy of the document is submitted to the entire examination committee. They recommend that the responsibility for seeing that these changes are made rests solely with the dissertation director.

2. One or more committee members request that minor changes be made in the pre-defense copy and wish to see the revisions before determining readiness to defend. However, the changes are of a minor nature and none of the committee members feels that an additional meeting of the dissertation committee is needed for final approval.

3. One or more committee members feel that revisions of a major nature are needed in the pre-defense copy. In this case, the doctoral candidate makes the recommended revisions and resubmits the revised copy to the dissertation phase committee. At this point, a reasonable period of time must be allowed before the rescheduling of the pre-defense meeting. At the second pre-defense meeting, outcomes "1" through "4" are again possible.

4. The committee determines that major revisions necessitate postponing the scheduling of the oral defense for an unspecified time period. If possible, arrangements should be made at this point to submit the revised document to the committee and a time for the next pre-defense committee meeting should be set.

Once the committee has determined that the dissertation is ready to defend, only minor changes agreed upon by the committee should be made.

Arranging for the Defense

Each term’s deadline date for the oral defense is posted on our web page, https://www.kent.edu/ehhs/ogs/important-dates. It is important to adhere to...
the EHHS defense deadline in order to provide sufficient time for editing and for production of the final corrected dissertation copy. Note: Please remember that the EHHS oral defense deadline is different from the university deadline. Only rarely can a short extension of a deadline be made, and then only with a petition from the doctoral candidate and the dissertation director to the Associate Dean for Administrative Affairs.

Upon receiving the approval from the dissertation director, the doctoral candidate should distribute the defense copy to all members of the Dissertation Committee including the graduate faculty representative and moderator. At least ten working days must elapse between distribution of the defense copy and the oral defense.

The purpose of the defense copy is to be a basis for the questioning of the doctoral candidate. As such, all parts of the work must be included in typewritten form. These include the table of contents, lists of tables, all data, the complete references, and appendices. All pages must be numbered appropriately.

The Ph.D. candidate is responsible for assuring completion of the Notification of Readiness to Defend the Dissertation form, found at https://www.kent.edu/ehhs/ogs/forms. This form testifies that all members of the dissertation phase committee have agreed that the dissertation is ready for defense. A copy of the defense brochure must be attached to the form.

Readiness to Defend & Brochure

The defense is announced to the faculty and students of the College of EHHS through the defense brochure, prepared by the candidate. The candidate should attach a copy of the brochure to the Readiness to Defend form and assure completion of the form has occurred no later than ten days prior to the dissertation defense. Copies of the brochure will be posted on the OGS website https://www.kent.edu/ehhs/ogs/doctoral-students so that interested parties can make arrangements to attend the defense. The candidate should also plan to provide copies of the brochure to committee members and guests at the defense. Samples can be found outside the Office of Graduate Student Services, Room 418 White Hall, and two samples of brochures can be found at: https://www.kent.edu/ehhs/ogs/doctoral-students. The two brochure samples are located on that webpage under the heading DISSEETATION.

The defense brochure contains a biography of the candidate and a condensed abstract of the dissertation. The biography, which should be 200 to 250 words in length, should include background information, professional experience, and research completed or in progress. The condensed version of the dissertation abstract should be limited to 200 to 250 words.

Oral Defense

The oral defense of the dissertation is a formal scholarly event which is open to the university community and the public. It is suggested that the candidate distribute copies of the defense brochure to members of the audience who did not obtain them at an earlier time. At the discretion of the moderator, members of the audience may be granted the privilege of
questioning the candidate. It is the responsibility of the graduate faculty representative to file an evaluation with the Associate Dean for Academic Affairs regarding the maintenance of scholarly standards. Evaluation forms are available in the Office of Administrative Affairs, Room 407 White Hall.

Students are expected to have achieved independence with the requisite research methodology of the dissertation and demonstrate a thorough knowledge of the research processes for his or her dissertation. The oral defense of the dissertation should be a clear demonstration of a student’s independence and competence in research.

Examining Committee and Voting Procedures

The examining committee consists of the dissertation phase committee, the graduate faculty representative, and the moderator. With the exception of the moderator who votes only if serving in the dual capacity of graduate faculty representative, each committee member must vote in favor of passing or failing the candidate's performance.

No abstentions are permitted. A candidate passes the final oral defense if he or she receives no more than one dissenting vote.

Immediately preceding the defense, the moderator typically clears the examination room of all but the examining committee. The committee then discusses the defense copy to ensure that all members judge it ready to defend. The moderator and committee will also establish the questioning procedures at this time.

At the outset of the examination, the moderator reviews the ground rules for the oral defense and the order of questioning by the examining committee. The doctoral candidate then presents an overview of the research, briefly stating the purposes of the research, method of investigation, and outcomes. Questioning of the doctoral candidate follows the rules previously established by the moderator. Normally each committee member is allotted ten to fifteen minutes during the first round of questioning. The dissertation director is usually the last member of the committee to present questions.

Following the first round of questioning, the moderator will normally ask each examination committee member if there are further questions. When the examining committee has been satisfied in the questioning, the moderator may ask if there are any questions or comments from the members of the faculty or guests in attendance. The moderator may also choose to question or comment at this time.

When the questioning and dialogue have been completed, the doctoral candidate and all visitors are excused. The examination committee then has an opportunity for discussion before voting to determine whether the oral defense should be evaluated as pass or fail.

Doctoral candidates preparing to defend their dissertations are strongly encouraged to attend one or more oral defenses in order to become familiar with procedures.
Remote Participation in a Dissertation Defense

Under normal circumstances, all members of a dissertation committee must be physically present in the examination room during the entire dissertation defense and during the committee's private deliberations following the examination. In most cases, the chair of the dissertation committee and the graduate faculty representative are expected to be physically present in the examination room. Students enrolled in a fully online degree program are not required to be physically present for their dissertation defense. For on-ground and hybrid (online/on-ground) degree programs, remote participation by web conferencing is permitted only if the student and/or committee member has obtained permission in advance from the chair of the dissertation committee in consultation with committee members. They must provide a compelling reason and/or explanation as to why they cannot be physically present. With any dissertation defense that is approved to be conducted with remote participation, the following rules must be enforced:

- The web-conferencing software to be used allows all participants to see and hear each other during the entire defense.
- The defense remains open and available to the university community.
- The program pays for any costs associated with the remote participation.
- The chair of the dissertation committee is responsible for ensuring that all requirements for remote participation are met, that the remote participation was uninterrupted and, if interrupted, that the defense was paused until all remote participations were fully restored.
- Participation by telephone only is not permitted under any circumstances.

Report of the Oral Defense

The Report of the Oral Defense of Dissertation form must be initiated by the student prior to the oral defense. It is necessary that this form be submitted in order to clear the candidate for graduation.

The graduate faculty representative is expected to provide an evaluation of the dissertation defense including thorough written comments which are forwarded to the Associate Dean for Administrative Affairs. Comments will be summarized periodically and will be disseminated to dissertation chairs, the Annual Dissertation Awards Committee, and the committee conducting the five-year review of graduate faculty.

POST DEFENSE ACTIVITIES

Final Dissertation Copy

It is not unusual for the examining committee to recommend a number of changes in the defense copy of the dissertation. The candidate should work closely with the dissertation director as these revisions are made.
The final dissertation should be checked as carefully as any article or book being prepared for publication. Format, style, spelling, punctuation, and references should be in final form before the committee gives final approval to the dissertation.

**Signature Pages**

Signature pages will be done electronically beginning Spring semester 2020. The form can be found on the Office of Graduate Student Services website at: https://www.kent.edu/ehhs/ogs/forms. The candidate should be careful to note the examples of the signature page in the Guidelines for Preparation of Theses and Dissertations. Please ensure that you have all proper names and email addresses for your entire committee along with the School Director prior to beginning the electronic form as you will be required to enter these.

Once you begin the DocuSign document it will automatically move through all the signatures and end with the Associate Dean for Graduate Education’s office. The process will be completed once all corrections to your document have been made. It is essentially an electronic version of the current process. If you have any questions you can contact Luci Wymer, awymer@kent.edu in the Associate Dean’s office.

**Editing**

It is suggested that the candidate hire a dissertation editor to assist in producing an error-free document that can be a continuing source of pride for the individual and for the College of EHHS. When working with an editor it is important to be specific about the scope of the editing expected. In general, the less polished the document delivered to an editor, the greater the editing cost. Please provide your editor with a copy of the Guidelines if they are not one of the EHHS recommended editors.

Typically, candidates request editors to check the following:

1. Type style.
2. Pages preceding text to note whether the following items are properly included: title, copyright, and approval pages; preface and table of contents; lists of figures, illustrations, and tables; blank pages before title, copyright, approval, and preface pages.
3. Margins, spacing and pagination.
4. Chapter titles and subheadings.
5. Paragraph and sentence structure; punctuation, spelling, and vocabulary usage in text and appendices following standard procedures as presented in APA.
6. Coordination of text with appendices, references, tables, and illustrative material.
7. Tables, figures, and references for consistency with the APA used by the student.

**Finalization of Dissertation Steps**

Each term, there is an official deadline for electronically submitting the final corrected copies of the dissertation and survey of earned doctorates.

The candidate should check [https://www.kent.edu/ehhs/ogs/important-dates](https://www.kent.edu/ehhs/ogs/important-dates) for the deadline dates for the semester in which graduation is anticipated or visit the Office of Graduate Student Services where the Important Dates are posted on the bulletin board outside of the office.

1. Approval/Signature Pages
   a. Approval/Signature Pages are being processed electronically beginning Spring semester 2020. The form can be found on the EHHS Graduate Student Services website under Forms, Dates & Resources: [https://www.kent.edu/ehhs/ogs/forms](https://www.kent.edu/ehhs/ogs/forms). Please have the proper names and email addresses for your entire committee and the School Director prior to beginning the electronic form. Once you begin this process the form will automatically move through the process.
   b. Review the [Guidelines for Preparation of Dissertation](#) appendices for examples of needed information.
   c. Students are no longer required to submit a paper copy of Approval/Signature pages.

2. Finalize document in preparation for upload to OhioLINK ETD Center
   b. The Office of Administrative Affairs, Room 407 White Hall will be notified as soon as you have uploaded your document.

   a. The Office of Administrative Affairs will pull a copy of your document from the ETD site and review for any formatting issues.
   b. The office will be in touch with you via your KSU email.
   c. Once you and/or your editor have made the appropriate corrections you will re-upload to OhioLINK, following the instructions provided.
   d. The document is again reviewed for appropriate formatting.
e. Once all corrections have been made, submit the final revised version on the ETD site.

4. Students are responsible for copyrighting and hardbound copies.

**GRADUATION ARRANGEMENTS**

**Application for Graduation**

Application for graduation must be completed no later than Friday of the first full week of classes in the semester in which graduation is anticipated. Students who submit a graduation application after the posted deadline will need to complete the Late Graduation Application form, accessible on FlashLine, under Student/Resources/Graduation.

All required coursework, internships and practica must be completed before students will be cleared for graduation. Students who are on the graduation list will receive an email from University Events and Protocol. This letter will contain pertinent information regarding cap and gown rental/purchase and graduation ceremony attendance. If any questions or problems arise once the graduation audit process has begun, students will be notified. Problems communicated to the student that are not resolved prior to the deadline will result in student’s removal from the graduation list. At that time, the students will receive a letter explaining the reason for the action and procedures for reapplying for graduation.

**Reapplication for Graduation**

Those applicants who do not meet the requirements for graduation by the posted deadline must reapply for graduation. The deadlines for application for graduation hold for reapplication for graduation. The doctoral candidate must also register for dissertation credits for the term in which graduation is anticipated.

**The Graduation Ceremony**

**Doctoral Hoods**

Every doctoral graduate who attends the commencement ceremony is presented with the ceremonial doctoral hood free of charge. The hood is given by the College of EHHS to celebrate the accomplishments of the new doctoral graduate. Students who would like to own a hood, but do not attend the commencement, may obtain the hood at their own expense.

Candidates who plan to participate in the graduation ceremony must make arrangements to be properly attired in a doctoral gown. The University Bookstore rents and sells doctoral gowns. Whether purchased or rented, the doctoral gown must be appropriate to the degree. When ordering a gown, a doctoral candidate from the College of EHHS should specify that the Doctor
of Philosophy degree in education has been earned. The gowns worn by master's or bachelor's degree recipients are inappropriate attire.

**Keeping In Touch**

Doctoral graduates are asked to update the Office of Graduate Student Services with addresses and professional positions. Kent State University is proud of its graduates and would like to share their successes and inform them of upcoming activities.
