Notes

- Students have 6 years to complete the M.Ed. Graduate students who require an extension will complete the request for time extension form located in the Associate Dean's Office in 409 White Hall. Reasonable timeline and rationale must be included in the request. The extension may be denied resulting in dismissal of the student, or the extension may be granted with qualification.
- The minimum number of graduate hours required for a master's degree is **33** and include prescribed courses associated with research, foundations, and the appropriate option (thesis or non-thesis). Although hours required for licensure, endorsement, or certification may go toward a master's degree, the master's degree must include the prescribed courses as indicated on this page.
- No more than 12 graduate hours (if approved by your advisor **and** meet the currency and grade requirements) may be **transferred** from another institution **and/or from a non-degree program even if at KSU**. Additionally, only **4** hours of graduate **workshop credit**, if approved by your advisor and meet the currency and grade requirements, may apply towards your master's degree and these hours would be counted in the maximum of 12 graduate hours outlined in the previous sentence.
- Generally, **application for graduation** is required the first Friday of the semester you plan to graduate. It is your responsibility to submit the application to the Office of Graduate Student Services by the due date. No reminder is provided.
