! Dave Dee’s Report
a. Dave updates the council on the search for the position of the vice president and provost and on the search for the position of the Vice President of Regional Campuses and Dean of the College of Applied and Technical Studies. The candidates for these positions will deliver virtual public presentations in the month of October with final decisions to be made next month
b. Dave updates the council on the ongoing discussions over the best means for the regional campuses to share resources, such as math and writing tutors. The goal is to provide students with easy access to resources across the regional campuses without compromising the values of local campuses. To this end, assistant deans are developing a schedule that would not “rip the system.”
c. A major step towards sharing resources effectively has been accomplished: regional campuses have aligned zoom courses across the regional campuses.
d. Dave informs the council that Kent State University has arranged for students to take free COVID-19 test at CVS.
e. To create more transparency, the university will the Flashline dashboard to provide regular updates on new cases of COVID-19 across the campuses.
f. Dave discusses the “mail question.” Given that fewer and fewer pieces of mail are being delivered to the campuses, Kent State will use regular mail rather than the Kent mail delivery service. The goal of this change is to cut costs.
g. The university has empowered the regional campuses to make their own decisions regarding the post-Thanksgiving opening of buildings.
h. Finally, Dave informs the council that President Todd Diacon will start making his annual campus visits in Spring, but they will be done virtually.
i. Dave leaves the meeting at 10:34.
