2.0 OVERVIEW OF KENT STATE UNIVERSITY

Brief Overview of Kent State University: Kent State University is the largest public multi-campus system in Ohio, with eight unique and distinctive campuses serving a population of 39,000 students, nearly 4,000 full-time faculty and staff members and more than 260,000 alumni worldwide. After a successful seven-year tenure, Executive Vice President and Provost Todd Diacon became the university’s 13th president on July 1, 2019.

The university’s Kent Campus has a student body of nearly 29,000 and a thriving residential population of more than 6,600. Its seven regional campuses draw full- and part-time students, now totaling 12,000, from across Northeast Ohio: Kent State at Ashtabula; Kent State at East Liverpool; Kent State at Geauga in Burton and the Regional Academic Center in Twinsburg; Kent State at Salem; Kent State at Stark in Canton; Kent State at Trumbull in Warren; and Kent State at Tuscarawas in New Philadelphia.

Kent State’s College of Podiatric Medicine is located in Independence, near downtown Cleveland. The Cleveland Urban Design Collaborative is the combined home of the urban design graduate program and the public service activities of the College of Architecture and Environmental Design; the center offers architectural and urban design expertise to urban communities, design professionals, and nonprofit and academic partners in Cleveland and Northeast Ohio. In addition, Kent State’s School of Library and Information Science offers the Master of Library and Information Science degree program to residents of central and southern Ohio at its site in the State Library of Ohio in Columbus. Outside of Ohio, located in the heart of the New York City’s Garment District, the Kent State Fashion School’s NYC Studio offers a unique academic experience to further students’ studies in fashion design, fashion merchandising and fashion journalism.

The university offers more than 200 global education opportunities at its campuses in Florence, Italy, and Geneva, Switzerland; centers in China and India; as well as partnerships with 60 institutes and universities across the globe from Colombia to Vietnam and Germany to Kenya. The Kent Campus is a global education destination in its own right, serving as home to 1,700 students hailing from 111 countries.

Kent State is proud of its outstanding faculty and staff, students, collaborative culture, exceptional academic and research orientation, and strong commitment to engagement, academic excellence and diversity. The university offers nearly 300 associate and baccalaureate degree programs. Kent State serves the state, the nation and the world through 165 graduate programs. Academic programs are organized into 10 colleges and one independent school: Aeronautics and Engineering; Architecture and Environmental Design; Arts and Sciences; the Arts; Business Administration; Communication and Information; Education, Health and Human Services; Nursing; Podiatric Medicine; and Public Health.

Kent State holds a coveted spot in the first-tier list of Best National Universities in the 2019 edition of Best Colleges by U.S. News and World Report. As an engine for economic, cultural and workforce development, Kent State generates nearly $1 billion annually in direct economic contributions to the Northeast Ohio economy and that impact grows to $3.4 billion when including the added income earned by Kent State graduates in the region. Statewide, the university’s total economic impact was estimated at more than $3.8 billion in a recent study conducted by the firm E and Y (formerly Ernst and Young).

3.0 REQUEST FOR PROPOSAL INSTRUCTIONS

3.1 Proposal Instruction and Information: In order to receive consideration, companies responding to this RFP are required to submit their proposal via DocuSign at https://www.kent.edu/procurement/bids and the Certificate of Completion must be timestamped “Signed” no later than the date and time specified. Proposals timestamped after that date and time will be rejected.

Forms 1 through 9 must be completed, dated, and signed by a responsible company official, in addition to the information requested of your company. Forms 1 through 9 must be completed and submitted via DocuSign. No other submission method will be accepted.

It is the responsibility of the respondent to ensure that all required documentation, as enumerated above, arrives on time and at the designated location. Any submissions received after the stated date and time, or those that do not contain the required information as enumerated above, or the correct number of copies, will be considered incomplete and unresponsive, and will be disqualified.

Instructions, manufacturer’s model or catalog numbers, etc., where shown herein, are for descriptive purposes to guide the proposer in interpretation of the quality, design, and performance desired, and shall not be construed to exclude proposals based on furnishing other types of material or service which may be judged as an acceptable alternate. If the description of your offer differs in any way, you must give a complete detailed description of your quotation including pictures and literature where applicable. Unless specific exception is made, assumption will be that you are submitting a proposal exactly as the specifications of this document require. All prices MUST BE FIRM. Proposers will be expected to deliver on order(s) at the price quoted.

This RFP is part of a competitive procurement process which helps to serve the University’s best interests. It also provides contractors with a formal and unrestrictive opportunity for their services to be considered. The process of competitive negotiation being used in this case should not be confused with the process of competitive sealed bidding. The latter process is usually used where the goods and services being procured can be precisely described and price is generally the determinative factor. With a RFP and competitive negotiation, however, price is not required to be the determinative factor, although it may be, and the University has the flexibility to negotiate with one or more contractors to arrive at a mutually agreeable relationship. Check your proposal carefully for it may not be corrected after the proposal has been opened.

3.1 New Product Lines: Upon written request by the successful proposer, new related product lines, not available at the time of proposal bidding, may be added during the course of this agreement at like discounts for the represented manufacturers.

3.2 Specifications: Specifications have been based on services familiar to the University and are suggested as written. Reasonable alternates are welcome and encouraged for submission and consideration.

3.3 Exceptions to Specifications: The proposer shall clearly state in the quote any exceptions to, or deviations from, these specifications, terms or conditions; otherwise, the proposer will be responsible for compliance with all requirements listed herein. Proposers shall provide a separate, itemized list of any and all exceptions. Such list must be cross referenced to the corresponding numbered item in this bid.

3.4 Additional Information: In the event that information submitted by the Respondent is unclear to the University, the University may request additional explanation from the Respondent for the purpose of evaluation and decisions. The respondent shall answer requests for additional information or clarification in writing, and these responses will become part of the company’s overall submission. Respondents failing to provide adequate information on any issue in a timely manner to allow a comprehensive evaluation by the University shall be considered unresponsive, and their proposal subject to rejection.
3.5 **Verbal Information:** Respondents shall NOT base the proposal on verbal information from any employee of the University from the date and time the RFP is received by the proposer, unless otherwise noted elsewhere in the RFP. Any such incident will invalidate the proposal, and bar that particular vendor from receiving a purchase or contract award. In case errors or omissions are found in the proposal document, companies submitting proposals shall at once inform the signee in the Procurement Department who will publish the correction to all companies.

3.6 **Evaluation and Contract Award:** Selection and award of contract will be made to the supplier whose proposal, in the sole opinion of Kent State University, represents the best overall value to the University. Factors which determine the award are more fully detailed in the specifications, and will include, but will not be limited to, the following: The proposer’s responsiveness to all specifications in the RFP, quality of the proposer’s products and/or services, ability to fulfill the contract, and general responsibility as evidence of past performance. Payment terms and cash discounts will be considered as determining factors in the contract award.

Should the total potential spend of the contract resulting from this RFP, inclusive of all possible renewals, exceed or appear to exceed $1.0 million, the final selection will be pending Board of Trustees approval at its next scheduled meeting; and appropriate contract review, approval and execution pursuant to University Policy.

Notwithstanding the above, this RFP does not commit the University to enter into any contracts as described in this document. The University reserves the right to reject any or all offers and to waive formalities and minor irregularities in the proposals it receives.

3.7 **Proposer Presentations:** Proposers submitting proposals which meet the selection criteria and which are deemed to be the most advantageous to the University may be required to give an oral presentation to the University selection team. Scheduling of these oral presentations will be done by the Procurement Department.

3.8 **Samples:** Requested samples necessary for evaluation must be provided without cost or obligation to Kent State University, and shall become the property of the University. Upon request by the supplier, unless destruction, alteration or retention of the sample is required for evaluation purposes, samples may be returned to supplier at supplier’s expense.

3.9 **Procedure for Conducting Negotiations:**

--- **Who To Negotiate With First**

After completion of the initial evaluation process, the University may begin negotiations with one or more vendors whose proposals are most in keeping with the University’s requirements as enumerated in the RFP. Notification of such negotiations will be offered after a reasonable amount of time has elapsed from the proposal deadline. Negotiations shall continue to the satisfaction of the University or, if the University determines a satisfactory agreement cannot be reached, the University may initiate negotiations with one or more of the remaining vendors.

--- **Negotiations With Multiple Vendors**

The University reserves the right, at all times during the negotiation process, to negotiate with one or more vendors at the same time, but is under no obligation to do so. The vendor(s) with whom the University enters into negotiations must have present a representative with decision-making authority.

--- **If Negotiations Are Unsuccessful**

With respect to any of the services that are a part of this RFP, in the event that the University determines that a contract cannot be negotiated with any of the vendors who respond to the RFP, the University shall have the right to issue a new RFP or other process to seek qualified applicants, to provide the services itself, or to use another process (e.g., sole source contracting) in order to have the product(s) and/or service(s) provided.

3.10 **Valid Proposals:** Proposals will be considered valid for a period of one hundred-twenty (120) days from the date of the proposal.

3.11 **Preference to United States and Ohio Products:** State of Ohio Am. H.B. 271 requires that preference be given to products produced or mined in the United States and in Ohio.
3.12 **Buy America:** Proposals will be evaluated to determine that a proposer’s offering is for a “domestic source end product”, as defined in the Federal Buy America Act, 41 U.S.C.A., and section 10a-10 d. Any proposer’s offering that does not meet this requirement shall be rejected, except in those circumstances where a determination has been made that certain articles, materials and supplies are not mined, produced or manufactured in the U.S. in sufficient and reasonably available commercial quantities and of satisfactory quality.

3.13 **Buy Ohio:** Sections 125.09 and 125.11 of the Ohio Revised Code require that in the evaluation of bids, the University give preference to products which are "mined, excavated, produced, manufactured, raised, or grown in the state by a person where the input of Ohio products, labor, skill, or other services constitutes no less than 25% of the manufactured cost", or products offered by bidders who have a "significant Ohio presence," defined to mean that the bidders pay required taxes to the state of Ohio; and are registered and licensed to do business in the state of Ohio with the Office of Secretary of State; and have ten or more employees based in Ohio, or seventy-five percent or more of their employees based in Ohio.

Any bids meeting the above criteria will be given a preference of up to five (5) percent over the lowest price "non-Ohio" bid submitted; except that such preference will not be applied against vendors from bordering states, provided that the border state imposes no greater restrictions than contained in sections 125.09 and 125.11 of the Ohio Revised Code. Where it has been determined that selection of the lowest Ohio proposer, if any, will not result in an excessive price or a disproportionately inferior product or service, the contract shall be awarded to the low Ohio proposer at the proposal price quoted. Where it is advantageous to award the contract to other than an Ohio proposer or Proposers from a border state, then the contract shall be awarded accordingly.

3.15 **Electronic Information Technology (“EIT”) Compliance:** If the proposed product or service is an Electronic Information Technology (“EIT”) product or service as such products or services are defined below in this Section, then your proposal must include a response to this section so the proposed product or service can be evaluated by University personnel for compliance with the University Policy 4-16.

“EIT” product(s) and/or service(s) include, but are not limited to, systems and application software (including mobile), online services such as learning management systems, content management systems, access portals, online marketing solutions, websites, web content and multimedia, digital materials (video, audio, etext, ebooks, lab simulations), telecommunications, and self-contained products such as displays, kiosks, touchscreens, operable controls (key carded door openers), and personal response systems.

If the proposed product or service is not an EIT product or service, consider this section complete.

Pursuant to University Policy 4-16, Kent State University is committed to ensuring that its electronic and information technologies, including but not limited to, all information provided through university and third-party websites, online learning and course management systems, and curriculum, institutional and administrative data systems: (a) provide equal opportunity to the educational benefits and opportunities afforded by the technology; (b) provide equal treatment in the use of such technology; and (c) be accessible to individuals with disabilities in compliance with Section 504 of the Rehabilitation act of 1973, as amended and the Americans with Disabilities Act of 1990, as amended (ADA-AA) and other applicable laws of the State of Ohio.

(List in adjustments section less cost of soft color proof for jackets/covers. List in adjustments section additional costs for Cromalin proof of 4 color jacket/cover.) Three (3) trimmed jackets/covers to be sent to the University Press for approval by phone before wrapping jackets.
   e. Inks: Two (2) or three (3) PMS, or 4-color process. Type will either reverse out of color or will reverse and trap in another color. Vendor will perform any necessary trapping.
   f. Topcoat: Polypropylene matte film or Polyester gloss film lamination. (Show less costs for UV coating in adjustments section.) Covers must use Layflat film lamination.

**NB:** Printer must print sufficient quantity of jackets and covers to allow for spoilage. Kent State University reserves the right occasionally to supply printed trimmed jackets and/or covers to bidding vendors.
Packing and Shipping

Shrinkwrap books in small lots (2s or 3s). Pack books in 275#-test double-walled cardboard cartons weighing no more than forty (40) pounds each. Label each carton with author, title, ISBN, quantity per carton, whether cloth or paper, weight of carton, and The Kent State University Press. Cartons must be securely banded or plastic-wrapped onto pallets and suitably covered to protect against weather and rough handling.

Approximately 50 copies of each book are to be drop shipped via UPS to Kent, Ohio 44242. The balance is to ship F.O.B. Ashland, Ohio 44805, prepaid, and charged back to The Kent State University Press at actual amount paid. (Actual shipping instructions will be included with specifications upon vendor’s receipt of the job.) Include freight charges on manufacturing invoice. Copies of invoices from freight carrier must accompany manufacturing invoice to eliminate delay in payment.

Freight

The totals calculated for the quoted book publications will not include the freight costs. The freight costs quoted will be considered as estimates only; however, the freight costs are to be estimated as close to actual cost as possible. Any discounts received from freight carriers by the vendor must be extended to the university and the full discount reflected in the estimated freight costs quoted. These discounts will be considered in the award evaluation process.

Schedule

Not more than 40 working days (8 weeks) from receipt of copy and specifications to completion of casebound books including time to approve proofs. Not more than 30 working days (6 weeks) from receipt of copy and specifications to completion of paper covered books including time to approve proofs.

Quality

All manufacturing will be judged for acceptance by The Kent State University Press, and an immediate reprint will be required of any title if it is rejected for any quality reason. The vendor will be responsible for any materials and inspection costs in case of a rejection.

Storage

All negatives for text, covers, and jackets, and stamping dies are property of The Kent State University Press and are to be held by the printer/binder for further reprints. The vendor should insure them against loss or damage for their replacement value. The University Press should be notified of any exception to this requirement for special arrangements to be made. Materials are not to be destroyed without approval in writing from The Kent State University Press.

RESPONSE GUIDELINES

Base responses on the above specifications and submit prices for five (5) standard trim sizes (5.5 x 8.5, 6 x 9, 6.125 x 9.25, 7 x 10, and 8.5 x 11) and a range of print quantities (400 to 3500) to be printed on text stocks in the weights being requested. Indicate any deviation from these trim sizes or stock specifications on your proposal. Deviation from specified stock should be submitted as a percentage more or less than the price for the requested stock. Each space in each column must be completed either with a price or, if you are unable to provide a price, “NA” (not available).
An allowance will be made for adjustments in billing for variations in specifications from the attached forms. An adjustment section is included at the end of the attached price chart proposal forms for a list of per item costs.

**Overruns**

Kent State University will not accept more than a ten percent (10%) overrun on runs of less than 10,000 copies. On runs of 10,000 copies or more, only a five percent (5%) overrun will be accepted.

**Underruns**

Kent State University will accept no less than five percent (5%) under the specified print and bind order including bindery spoilage.

**Price Adjustment**

The quoted rates for printing must remain firm during the term of the partnership; however, prior to entering into a renewal of the contract and in the event of a price change related to a labor and/or materials increase or decrease, prices may be changed subject to a negotiated adjustment to reflect such an increase or decrease. Such negotiations and adjustments will be considered only upon written request to the Procurement Department, documented with cost data, filed sixty (60) days prior to the expiration term of the partnership and submitted after the expiration of ninety (90) days from the date of the proposal closing. Any price changes that may result will apply only to the renewal period of the contract.

Paper costs for each book publication job are subject to a negotiated adjustment to reflect current paper market increases or decreases. Such negotiations and adjustments will be considered only upon written request to the Procurement Department, documented with cost data from the paper mill, filed along with each publication estimate.

**Delivery**

Delivery of each completed publication is to be made via United Parcel Service (UPS) of approximately 50 copies to Kent, Ohio. The balance is to be shipped F.O.B. Ashland, Ohio, prepaid, and charged back to The Kent State University Press at cost unless instructed otherwise.

Liquated Damages: The University and the successful printing contractor agree that in the event that the printing contractor fails to perform to each printing publication, the university will suffer damage. The extent of the damage would depend upon the specific circumstances.

Therefore, the successful proposer agrees to pay the university liquidated damages if the agreed delivery dates are not met. The liquidated damages shall be one percent (1%) of the total printed publication price per day after agreed on completion date, not to exceed a total of ten percent (10%) of the total printing project.

**Site Visitation of Printer’s Facility**

If deemed necessary, Kent State University reserves the right to complete an on-site inspection of company’s facility prior to the contract partnership award. This visit would ascertain that the printer has sufficient printing facilities, compatible software capabilities, and a required accounting program.

(Continued on next page.)
