

FALL 2023 Research for Credit Agreement Form

Requirements

1. Within the first week of class the student is required to write a short proposal on their research goals for the upcoming semester. **September 1, 2023**
2. A mid-term report, 2-3 pages, will be required on the progress the student has made in their research. **October 13, 2023**
3. The last week before the final exams, the student is required to present their research in front of the students and faculty of the Materials Science Graduate Program. The presentation should be 10 minutes long including 2 minutes of discussion. (8 minutes of presentation + 2 mins for questions). **TBA, week of December 4, 2023**
4. Within a week after the Research Presentation, the student will be required to submit a final report, 8-10 pages that supports their research presentation. **December 15, 2023**

****We are no longer accepting power point slides as mid term and final reports.**
