← **M.Ed. is typically awarded here** →

* During the first year, students are required to complete and turn in a portfolio of work completed for the program. This activity is facilitated through SPSY 67692. Near the completion of the first year, students will fill out a performance-based self-evaluation to be compared to one that is completed by the student's advisor.

**These courses are generally offered in Fall or Spring; EVAL 66510 may be taken the summer after the first year of coursework.

Notes:

1. SPSY courses are offered only in the semester shown; other courses may be offered at other times as well.
2. Students may not enroll in Year 2 coursework prior to the completion of Year 1 coursework unless the student's advisor and the course instructor have agreed to an exception.
3. The student understands the ramifications of the early enrollment (i.e., Summer), including an increased need for self-study in prerequisite areas.
4. Students are responsible for completing the approved course of study that is in effect at the time the approved prospectus is filed.
5. Ed.S. graduation is typically the summer at the end of the internship experience.
6. Depending on background and experience, additional coursework may be required in years one and two.
