

## Add a Test Student

Create a Test Student account to see how your course looks like from a student's perspective. After creating Test Student account, you can enroll this Test Student into all of your courses.

- Within your course, under Control Panel (located in the bottom left-hand corner), click on **Course Tools** then **Add Test Student**.

- User name for Test Student will be your username\_demo. Enter a password and click **Submit**.

**Create Test Student Account**  
*You can use this feature to create a test student account, then enroll this student in your current course to be able to view the course as a student.*

*\* Indicates a required field.*

**1. User Name**  
*This will be the User name of your Test Account*  
 Username

**2. Password**  
*Enter the password you wish to use for this Test Account*  
 \* Password   
 \* Confirm Password
