

*Kent State University*  
*Didactic Program in Dietetics*  
*Program Goals with Measurable Outcomes*

***Program Goal 1: To prepare individuals to become registered dietitians through the combination of their undergraduate degree program followed by successful completion of a supervised practice experience and the registration examination.***

***Outcome measures:***

- 80% of students declared as nutrition majors during their junior year complete the program within three years (including the junior year).
- 80% of students applying for supervised practice programs will be accepted.
- 80% of first-time takers pass the registration examination.
- 80% of graduates will rate their perceived preparation for supervised practice programs as at least a 3 (out of 5) on a graduate survey of skills expected upon graduation
- 80% of supervised practice program directors will rate KSU program graduates as satisfactory or better as to their academic preparation for supervised practice.

***Program Goal 2: To prepare graduates not pursuing a career in dietetics for advanced graduate or professional study or employment matching their individual interests and professional goals.***

***Outcome measures:***

- 80% of graduates pursuing advanced/professional study or employment were enrolled/employed within 12 months of graduation.
