

Pearson
Teacher Performance Assessment (TPA)
Spring 2012 Field Test

Explanatory Notes and Interpretive Cautions:

- For candidates with multiple sets of scores, statistics are computed using the first set only.
- Caution should be taken in interpreting results based on small sample sizes as the results may not be representative of the larger population.
- Content areas for which no responses were submitted are not shown.
- If applicable, a count is provided when a Condition Code of A-H was applied. The specific condition codes are provided to institutions on the Candidate Rosters. (This note applies only to the Distribution of Scores Assigned Report).
- Each Institution receives only their institution summary. States do not receive any institution summaries.
